NO. 59

## SIR THOMAS SHAUGHNESSY ON NEW STOCK ISSUE

C. P. R. President Reviews Company's Affairs and  
Defends Proposed Increase of Capital—Only  
Safe Course to Pursue, He Says

Winnipeg, Sept. 8.—Sir Thomas Shaughnessy, president of the C. P. R., arrived in the city by special train last night on his annual inspection tour of the system. He is accompanied by three directors of the company, R. B. Angus, Sir Edmund Osler and W. D. Mathews, and by Frederick P. Borg, a London financier and a former member of the British House. James Redmond, now of Montreal, but formerly well-known in Winnipeg, and R. Osler, of Osler, Hammond & Nanton, are also in the party.

Sir Thomas and his party were met at the station by Sir William Whyte and A. M. Nanton, George Bury, vice-president and general manager of the road. Grant Hall, general superintendent, J. M. Sullivan, and C. Coleman, also arrived in the city in Sir Thomas's special, having gone down to Fort William to meet him. Sir Thomas and his friends are guests at the Royal Alexandra.

### New Stock Issue.

Interviewed later, Sir Thomas made a full statement of the Canadian Pacific policy with regard to the new stock issue, the issue of stock below the market quotations, freight rate jurisdiction and other matters of much interest concerning the C. P. R. Of the proposed new stock issue he intimated that it was made necessary to increase the scope of the company's undertakings and was in no way affected by the fact that large dividends have been paid. These, he said, were to a great extent revenues from land sales, and quite apart from the earnings from the railway. The "ten per cent clause," he described as a dead letter, saying that for years the company had earned more than ten per cent on its capital investment and had consequently submitted to rate control by the railway board. He was full of optimism concerning the outlook for this fall.

"Last year fearful times were predicted," he said, "but everybody came out all right. It will be just the same this time. You can't keep the stock down, and it is impossible to discourage it."

Discussing the proposed stock issue at the C. P. R., Sir Thomas said: "The policy and affairs of the Canadian Pacific are proper subject for discussion and criticism by the public and the press of Canada. The company's prosperity would naturally cause some jealousy, and the bogie of 'melon cutting,' as it is sometimes termed, can be flouted with a degree of effectiveness that would not be possible in other circumstances. No doubt you agree with me that the people of Canada take a just pride in their great railway, would not let any other country have it for the world, and, indeed, while they give it a good many hard knocks themselves, they would not permit any outsider to hit it. While I say the affairs of the Canadian Pacific are a proper subject for discussion in Canada, we should start with correct premises or any conclusion will not be fair and sound. Most people forget, or do not know, that the cash subsidies, the large amounts received from the sale of land and the proceeds of land grant bonds, all of which are applied to the construction and equipment of the railway, play no part whatever in the accounts of the company, the cost of the property having been reduced by these amounts years ago. The land grant has proved to be a most valuable asset, but if we go back to 1888 we find the \$15,000,000 of land grant bonds, secured by the entire land grant of the company and fortified by a Dominion government guarantee of interest, only realized about \$9 in the market. This would represent an average price of about 90 cents an acre, so that twenty-four years ago this was the valuation put upon the lands by the investing public. In 1901 the average selling price of the land was a shade over \$3 an acre. In 1902 the first real activity in land sales commenced, due in a considerable measure to sales in large areas given to colonization agents at a very low figure. But in that year the average price an acre realized was only \$3.25. Since then the price has steadily advanced, and the railway company, the farmer and the owner of farm lands of any other description in western Canada, have reaped the benefit of the enhanced values. So that for seventeen years after the completion of the railway the land grant in that vast wilderness was not covered by anybody, and it was only after 1902 that the stupendous efforts and the vast expenditures of the company to attract attention and bring people to the country commenced to bear fruit and the land grant became an important feature in the company's financial affairs."

### Control of Rates.

Sir Thomas passed on to a consideration of the proposed control of rates by Parliament after the company pays 10 per cent dividends. "I notice," he said, "that frequent reference is made to what is known as the 'ten per cent' clause in the company's contract with the Dominion Government. Briefly stated, the contract provides that the company's rates for the carriage of traffic should not be subject to parliamentary supervision until such a time as the company was earning 10 per cent, per annum on the capital ac-

tually invested in the work. Dividends played no part, you will observe. It made no difference whether the company was paying 20 per cent, 10 per cent, 5 per cent, or no dividends at all. The determining factor was the earnings resulting from the operation of the railway. For a long time we have not pleaded that we were not taking for dividends, track and other facilities, \$75,000,000. Our rates and tolls have been submitted to the railway commission, and are dealt with in exactly the same way as those of any other railway company in the country excepting the Intercolonial, which does not come under the jurisdiction of the commission. So that the ten per cent clause, as it is called, has been a dead letter for a considerable period. But the subject of rates is now before the commission for consideration, and therefore I do not think it proper to enlarge upon the future of the company's earnings, and it could not be pleaded now, even if the company desired to do so."

Speaking of the issue of stock at a price below the market quotation, Sir Thomas proceeded: "Now any person who knows how expenditures are forced upon us year by year to provide additional facilities, apart from new railway mileage, can understand the necessity for increases in capital account. In ten years ending with June 30, 1912, the company expended in Western Canada for increased territory, yards, sidings, track and other facilities, \$75,000,000, and in Eastern Canada nearly \$4,000,000. Additional cars and locomotives cost in that same period \$31,000,000. So that we have an expenditure of \$300,000,000 that had to come from the proceeds of sales of common and preferred stock and surplus earnings."

### Financial Policy.

"I think that every financial man who has given the subject thought will testify that the company's financial policy has been wise and prudent and that its present strong position is due to almost universal faith in the correctness of its methods. But some one says if the shares are selling in the market at \$20, why let the shareholders have the stock on any lower basis. The man who asks that question means well, no doubt, but he overlooks the fact that shareholders are the proprietors of the company, who have no guarantee whatever of future dividends, who invest their money because they have faith in the future of the company and take chances of a series of bad crops, or war, or pestilence, or anything else that may at some time or other in the future have a serious influence on the company's revenue. The bond or debenture holder has security for his fixed return, but the holder of the common stock is not in that position. The board of directors of the company in determining the issue price of the stock must take into consideration many things that do not occur to those who lack intimacy with the company's affairs, or, indeed, with financial affairs generally. The credit of a government or a municipality or a railway company is a tender plant that must be handled with the greatest possible care if money required from time to time is not to cost too much or is to be promptly obtained. "The directors of the company are (Concluded on page 14.)

## THREE HUNTERS MAY HAVE PERISHED

Lost in the Mountains Near  
Juneau—Search Proves  
Futile

Juneau, Alaska, Sept. 8.—John Shattuck, 21 years, a student at the University of Oregon; Dell Lincoff, aged 25, a resident of Douglas, and Leslie Oliver, 17 years old, of Juneau, are believed to have perished in the mountains back of Sheep Creek, four miles south of here, having become lost in a fog while hunting. Parties of woodsmen and Indians, who have been searching the woods within a radius of twenty miles, have been unable to find any trace of the boys, who set out from Juneau on Thursday morning, expecting to return the same day. The three boys were unprovided and carried no blankets or heavy garments. They were unfamiliar with the mountainous country in which they must have been wandering during the cold nights of the last week. Heavy rains have fallen the last three days and little hope is entertained of the boys being found alive.

### FATAL COLLISION.

Woman Killed When Auto Collides  
With Street Car in Seattle.

Seattle, Wash., Sept. 8.—Mrs. George W. Rice, 77 years old, mother of George M. Rice, assistant chief engineer of the Milwaukee road, was killed yesterday when the automobile in which she was riding with her son and her host, P. A. Heney and Mrs. Mary Frances Rowell, came into collision with a Broadway car at Broadway and Harrison streets. Mrs. Rowell, who lives at 325 Fourteenth avenue north, was badly shaken up and bruised and Mr. Heney was pitched out of the car, but was otherwise uninjured. Mr. Rice, son of the dead woman, and Patrick, 11 years old, son of Mr. Heney, were both uninjured. C. M. Lowery, who was driving the machine at the time of the accident, was released late last night on \$1,000 bail.

## FOUR ARE KILLED BY AEROPLANE

THREE OTHERS SUSTAIN  
SERIOUS INJURIES

Pilot Loses Control of Airship  
Which Sweeps Into Crowd  
of Spectators

Gray, Department of Haute, Saone, France, Sept. 8.—An aeroplane got out of hand yesterday at an aviation meet here, and swept to the ground, crushing down a score of spectators, four of whom were killed outright. The propeller blades cut their way through the people as the machine sped over the ground. Many saved themselves by dropping outstretched to the ground. One of the victims was an aged woman. Three persons were injured, their legs and arms being badly mutilated.

The pilot of the machine was not hurt. When he climbed out of his machine and saw the disaster which it had caused he fled wildly across the field. No blame, however, is attached to him.

### YUKON GOLD OUTPUT.

Dawson, Sept. 8.—The yield of the Klondike gold placer mines for 1912 was \$5,000,000, an increase of \$1,000,000 over 1911. The increase was not due to richer ground, but to more dredges being employed. The Upper Yukon has yielded \$169,000,000 of placer gold. The placer mines of the Lower Yukon, in Alaska, show a large decrease for the year.

## CANADA'S REVENUE CONTINUES TO GROW

August Returns Show Increase  
of \$3,000,000 Over Same  
Month Last Year

Ottawa, Sept. 8.—The Dominion financial statement for August shows continued evidences of gratifying growth in revenue. The total for the month was \$14,448,849, an increase of \$3,000,000 over the corresponding period last year.

For the five months ended August, the aggregate was \$68,903,167, an increase of \$14,000,000. Expenditures on consolidated revenue account for the five months was \$35,351,137, an increase of \$5,000,000. In August \$5,953,065 was spent. Outlays chargeable to capital account in the five months totaled \$8,701,167, a decrease of \$28,000. The August expenditure on capital was \$4,802,811.

Between July 1 and August the public debt was decreased by \$3,097,926. The net debt is now \$319,828,000. This is a decrease of \$8,000,000 compared with a year ago.

### ATTEMPT TO WRECK EXPRESS.

Train Passes Over Dynamite Which  
Fails to Explode.

Portland, Ore., Sept. 8.—The Oregon and California express of the Southern Pacific system, which arrived here yesterday morning, narrowly escaped a disastrous wreck near Gervais, a station forty miles south of this city. A trackwalker, who was following just after the train, discovered twenty-seven sticks of dynamite, some of the sticks capped and connected with a fuse.

The train had passed over the explosive, but for some reason the dynamite failed to explode. Detectives from this city and Salem were dispatched to the scene as soon as word reached headquarters in this city, but in spite of an all-day search for the miscreants who placed the dynamite, no arrests have been made so far as known.

Railroad officials in Portland are very secretive, and will not make public any of the details save the main facts of the attempted wrecking of the express.

## WILL CONTINUE JOURNEY TO BANFF

CHANGE PROGRAMME  
OF ROYAL PARTY

If Weather Permits Their Royal  
Highnesses Will Go Into  
Camp To-morrow

Cochrane, Alta., Sept. 8.—The governor-general's train, which entered Calgary on Thursday, took its departure from Calgary on Saturday night in a drizzling rain. It was not, however, until within an hour of the royal party's goodbye to Calgary that the rain began.

Despite the downpour, when their royal highnesses arrived at the station to go on board the royal train, there was a great crowd to see them off, with cheers for the King, the Duke, the Duchess and Princess Patricia.

Their Royal Highnesses had an interesting day of it. Sunday. The Duchess and Princess Patricia remained in Calgary, while the duke went out on the royal train to Glenora, forty-five miles east of Calgary, and motored out from that point in a wide circuit over the undulating plains to view the irrigation works of the Southern Alberta Irrigation Company. The royal party was preceded to Glenora by the special train carrying the Canadian agency party, including Arthur Grenfell, Sir Ronald Lane, Sir William Carstairs, Sir Arthur Lawley, Sir Charles Hunter, Winterton, Lord Stanhope, Lord Hyde, Major Malcolm Murray and a number of others, as also a number of guests, including Premier Sifton, Hon. C. W. Cross, attorney-general of Alberta, Hon. C. W. Mitchell, minister of public works; J. D. McGregor, manager of the Southern Land Company; A. C. Newton and J. Bain.

When the royal train arrived at Glenora, where there was a gallantly decorated arch, an address of welcome was read to His Royal Highness. To which he responded. The school children of Glenora made a pretty sight drawn up in a circle, and the duke went amongst them, speaking to them and shaking hands with them.

It was an ideal day for such an expedition the interest of which was greatly added to by the fact that in order to save time and give his royal highness the greatest possible variety of view, the trails were departed from several times and short cuts made, the procession of motors having more than once to retrace its course to find a better way round a hill or across a valley. This was especially enjoyed by the duke, who facetiously spoke of it as an experience of being lost on the plains.

The royal train carried his Royal Highness back to Calgary, where the arrival was made shortly after 3 o'clock. Meanwhile the Duchess and the Princess Patricia had been enjoying themselves greatly in the city. After saying goodbye for the day to the Duke at breakfast at Senator Longhead's residence, where their home during their stay in Calgary, the Duchess and the Princess went for a drive through the city, in the course of which they visited the central fire station.

After dinner at Senator Longhead's house the Duchess and the Princess joined the Duke on his arrival from Glenora, and motored around town for the first view of the illumination, before going to the royal train.

Change in Programme. Instead of going under canvas at the camp prepared on Ghost river, seventeen miles from here, the royal party will go on to Banff this afternoon. Captain Bulkley, aide-de-camp, rode over in the rain yesterday to the camp and the report he brought back in regard to the roads and the conditions at the camp as the result of the heavy downpour which set in on Saturday evening were such that it was judged best to forego for the present at least the intended sojourn in tents. Their Royal Highnesses, especially Princess Patricia, are greatly disappointed. The detachment of Royal Northwest Mounted Police, under the command of Inspector Duffus, is remaining at the camp and if the weather permits the royal party will return here from Banff to-morrow and go out to the camp for a couple of days speckled trout fishing and duck shooting.

Yesterday afternoon after the rain ceased the Duke and Princess Patricia, accompanied by the aides-de-camp, went out riding. Finding the roads heavy they went across country. Princess Patricia for the first time used a Mexican saddle, such as was used by the stampeders, and showed herself an accomplished horsewoman. The riding party was out an hour and a half.

### DESPONDENT MAN'S SUICIDE.

Lloydminster, Sask., Sept. 8.—Despondent because of the failure of his business Robert Nixon, 37 years of age, committed suicide by cutting his throat with a razor in an out-house near the C. N. R. tracks, between Synagogue and Government avenues, on Sutherland street. The man had evidently been standing against the wall when he cut his throat and had slipped to a sitting position on the floor, his feet protruding out the door. A passerby who observed the blood and the feet of the man ran to a telephone and called the police. Nixon leaves a widow and six small children.

### GIRL ELECTROCUTED.

Aurora, Ill., Sept. 8.—Zoe Friddy, one of three young girls who escaped from the state home for girls, met death while walking on the "third rail" of an electric railroad near here. The girls mounted the rails and set out "to find a town." To keep their balance they linked hands, Zoe walking on the power rail. They had gone but a few paces when they were hurled from the rails. All were rendered unconscious, but Zoe's companions were not seriously injured. When aroused from their stupor they ran wildly to a farm house for aid. While they were gone a car cut Zoe to pieces.

### CONFESSES MURDER.

Chicago, Ill., Sept. 8.—Conscience-stricken for seventeen years over having killed a man in St. Louis, whose name he never learned, Patrick Haley, 57 years old, surrendered to the Chicago police to-day and asked to be sent back to St. Louis on a charge of murder.

## IDEAL WEATHER IN SASKATCHEWAN

WORK BEING RUSHED  
IN THE GRAIN FIELDS

Harvesting General in Manitoba—High Temperatures  
Follow Rain

Regina, Sask., Sept. 8.—Ideal weather continues and harvesting is being rushed with all possible speed. The wheat cutting is in the last stages and farmers are turning their attention to oats.

There has been no storm at the week end and farmers are confident that they will reap the best paying crop in the history of the country. The government estimates issued this morning anticipate 105,000,000 bushels of wheat and it will nearly all be of high grade. There have been no bad conditions to cut the grade thus far.

In Manitoba. Winnipeg, Sept. 8.—Heavy storms passed over Central Manitoba Saturday night and Sunday morning, but for the most part the weather was fair over the week end, and harvesting operations are pretty general to-day. Temperatures remain high, though cooler weather has been promised. Excess of rain and absence of frost are the two striking characteristics of the harvesting season to date.

## CANADA SHOULD MAKE STAND CLEAR

J. A. M. Aikens Says Dominion  
Can Force Germany From  
War Game

Ottawa, Sept. 8.—J. A. Aikens, M. P. for Brandon, arrived here yesterday from a trip to Britain and the continent.

Asked regarding the interview purported to have been given by him in which he was quoted as saying that England and Germany were now in an actual state of war, Mr. Aikens says that he was both misunderstood and misquoted. What he wished to convey was that the two nations are playing a war game. Both have drawn cards and it is now a matter of the one outguessing the other as to their respective hands. Should Germany once believe that she held the winning hand, war would be on.

Mr. Aikens says that it is for Canada to take cards and show Germany that the Empire holds an overwhelming hand. Then, he believes, the Germans would leave the table and quit the game.

### MASSACRE OF ARMENIANS.

Two Villages Pillaged By Kurds Who  
Killed Over Score of Inhabitants.

Chicago, Sept. 8.—According to a special cablegram from Constantinople to the Chicago Daily News, the massacre of Armenians by Kurds has been resumed.

Two villages in Armenia have been pillaged and twenty-eight of the inhabitants killed. Another village has been destroyed by fire. The local authorities are powerless to preserve order. Foreign consuls are meeting to consider the crisis.

### WOMAN DRINKS POISON.

Atlanta, Ga., Sept. 8.—An investigation is being made to-day by the police of the suicide late last night by Miss Claire Cameron, daughter of John A. Cameron, until recently superintendent of the Columbus, Ga., street railway company.

Waving good-bye dramatically to R. D. Whitehead, a young man of Birmingham, Ala., Miss Cameron stood in the centre of the terminal station waiting room and drank a phial of carbolic acid. She died to-day. The police are holding Whitehead.

## CHURCHILL AND NAVAL PROBLEM

MUST NOT ANTAGONIZE  
CANADIAN LIBERALS

London Writer Says British  
Government Must Adopt  
Impartial Attitude

London, Sept. 8.—Henry William Massingham, in the Weekly Nation, says: "We do not know what the precise proposals are that Premier Borden has taken back to Canada, but we very strongly urged Winston Churchill that he cannot and must not put the Liberal government of Great Britain into antagonism with the Liberal party in Canada."

"It is not part of any Liberal government's duty to assist in the furthering of a policy which is essentially Conservative, and this we believe the proposals of Premier Borden and Churchill to be. Premier Borden was elected to power, it is remembered, not on his naval proposal, but on the wholly distinct issue of reciprocity, which would, in our opinion, have been an injury both to Canada's autonomy and our own."

The Spectator, referring to Canada's claim to some voice in the direction of foreign policy, says: "It would be absurd to suppose that Canada and other British nations overseas would consent indefinitely to follow in the train of Great Britain without a word as to the foreign policy of the Empire. The great sisterhood of nations within the Empire, all acknowledging allegiance, will make our foreign policy common."

"We do not shrink from the proposal. On the contrary, we welcome it. The time is already past when Great Britain could impose an Imperial policy on all parts of the Empire. We welcome the prospect, because it is a common responsibility, solemnly acknowledged, and will be an indissoluble bond among the various units of the Empire."

"This bond of union, we predict, will be a bond common and urgent. A necessity for a great union for defence, not an artificial commercial union, would introduce jealousies and rivalries and kill the sentiment that now compels the Dominions of their own notion to come to the aid of Great Britain."

### TURKISH TROOPS MUTINY.

Trouble Result of Failure to Disband  
Auxiliary Soldiers.

Constantinople, Sept. 8.—Troops have been dispatched to Yenik Shehr, near Constantinople, to suppress a mutiny of seven battalions of auxiliary troops attached to the Nizam or active army. The mutiny had its origin in the failure to disband the auxiliary troops, as was done in the case of other Dardanelles troops. The mutineers pillaged several villages and injured some of their officers.

### SUFFRAGETTE WEDS.

Philadelphia, Sept. 8.—It has just been learned that Miss Dorothy Lansbury, who obtained a license in this city and was married to Ernest Thurlie, of Brooklyn, the latter part of last month, is the famous "Dolly" Lansbury, the noted London suffragette. She is the daughter of George Lansbury, Socialist member of parliament, who only recently achieved notoriety by calling the British premier a murderer.

Miss Lansbury gave as her address the detention house for immigrants. In this way no one took the trouble to ascertain who the bride was.

## NEGROES ATTACK DEPUTY SHERIFFS

Rescue Eleven Prisoners After  
Sharp Fight—Two Officers  
Wounded

Brooksville, Fla., Sept. 8.—Eleven negro prisoners were rescued from here yesterday afternoon by a band of armed negroes who slightly wounded two of the officers. A posse has gone in pursuit of the negroes and a serious clash is feared.

Deputies Neal Law, Bertie and Lawrence Smith, raided a turpentine still, arrested eleven negro gamblers and started to Brooksville with their prisoners. They were attacked by an armed band of negroes bent on rescuing the prisoners, who were handcuffed together.

The officers, with the prisoners, sought refuge in a house and the assailants opened fire. No less than a hundred shots were fired into the house, the Smith brothers receiving charges of buckshot in their feet. The officers escaped after dark and came here to report the trouble. In the event the negroes show fight it is said a pitched battle will result.

## SIX ARE DEAD; NINETEEN INJURED

MOTORCYCLE PLUNGES  
INTO CROWD ON TRACK

Two Racers Among Those  
Killed on Course at  
Newark

Newark, N. J., Sept. 8.—Eddie Hasha of Waco, Tex., holder of several world's records for motorcycle racing, plunged over the rail of the course at Newark Motordrome into a crowd late yesterday afternoon, causing the death of six persons, including himself, while six are probably fatally and thirteen are badly injured.

The only two of the six dead positively identified up to a late hour last night were Hasha and Johnny Albright, a Denver motorcyclist, who was riding third in the race. The other four dead were boys and young men among the spectators.

Five thousand spectators were witnessing the finish of a four-mile free-for-all race when the daring young rider, doing ninety miles an hour, took his fatal plunge. He was pitched head first fifty feet into the air. His body was shapeless when it was picked up, almost at the feet of his wife, seated in the bleachers.

Albright was thrown head first in the other direction into the enclosure of the track when the champion's wheel came sliding down the steep bank and struck him. He was picked up for dead, but he lived in an unconscious state for more than two hours. The spectators injured were mainly the men and boys who were leaning over the rail yelling encouragement to the riders when Hasha came tearing into their midst.

At the crack of the pistol Hasha leaped ahead of Roy Seymour. After six rounds of the course during which his rival had eaten his smoke, the pair evened up and in another lap Seymour passed Hasha. By varying margins Seymour kept the lead until the last few laps.

The falling was lined four deep, with the men and boys urging Hasha to overtake his rival. Just at the commencement of the last lap the champion tried to satisfy the crowd by a desperate effort. The leader ran high on the track, leaving a narrow space for Hasha to pass, but the latter tried it. It was then he struck the railing.

The sprocket of Hasha's wheel was loosened by the collision and went sailing into the crowd, tearing off the skull of a boy. In addition to those injured as Hasha was hurled against them, many persons fell and were trampled in the wild scramble among the spectators. Seymour kept control of his machine and was riding to safety when Hasha's wrecked motorcycle came sliding down the track.

Albright, the first of the rearward riders, who was making a great effort to overtake the leaders, was struck by Hasha's machine, and received fatal injuries. Of the injured spectators ten were unconscious when aid reached them. Two died before reaching the operating table at the hospital and two others as the surgeons were about to work over them.

Hasha, the dead champion, sprang into fame as a motorcyclist at Los Angeles last February, when he was given credit for new records in the one, two, three and four-mile events. On the Newark track last month he bettered the mile record again, travelling the distance in 38.25 seconds.

Motorcyclist Killed. Chicago, Sept. 8.—Curtis Edwards, a professional motorcyclist, who came here from Denver, died at a hospital to-day as the result of injuries suffered Saturday night at the River-view motordrome.

Edwards' machine skidded while he was driving at 60 miles an hour. He was thrown against a railing and suffered a fractured skull and internal injuries.

### STRIKER KILLED.

West Virginia Militiaman Shoots One  
of His Assailants.

Charleston, W. Va., Sept. 8.—Artillery George Long, of Company B, West Virginia National Guard, shot and killed one of an attacking party of striking miners while on picket duty near Sharon, in the Kanawha coal field, according to reports received here.

It is the first fatal shooting since martial law was declared by Governor Glasscock in the strike region.

Long was on sentry duty near a wood and had been fired on a number of times from ambush.

### BRAKEMAN IS KILLED.

Prosser, Wash., Sept. 8.—N. M. Curran, a brakeman on a westbound freight train, was killed last evening when two cars, which were being switched on to a siding, left the track. Curran, who gave his home as Lancaster, Pa., lived about forty-five minutes after the accident. Investigation showed that the only injury received was a badly mutilated leg and death was caused more from fright than from the injury.

We are prompt, we are careful, and use only the best in our work

### SENT TO PRISON.

Young Man Gets Year for Stealing From Vancouver Bank.

Vancouver, Sept. 8.—Judge McInnes yesterday sentenced Richard P. Ogilvy to twelve months in prison with hard labor for stealing \$200 from the bank. He was employed by the bank, and for conspiracy with another clerk at the Merchants bank to defraud that bank of \$410. The case was watched with keen interest by a crowded court, which had assembled to hear the concluding stage of the trial and the passing of the sentence, which his honor had deferred from the previous day in order that he might hear witnesses as to the accused's character. Among those who gave evidence as to character were Albert Fraser, a prominent lumberman, at whose home he had been a frequent guest, and W. Shaw, of Victoria, who had had many business dealings with him.

## MEMBERS OF U. S. EXPEDITION SAFE

Barge Carrying Supplies Has Disappeared—Trip May Be Abandoned

Cordova, Alaska, Sept. 8.—The men and horses of the United States Bureau of Mines expedition to the Behring River coal fields are safe, but the barge containing their supplies is believed to be lost.

A slight moderation of the weather Saturday afternoon permitted the tug Corsair to reach Windham Island, where a barge containing the 37 men and horses had been anchored since Friday, exposed to the storm. The men have been landed at Stillwater, at the mouth of Behring River.

In spite of hardships, after a hard day of cruising on Controller Bay and the North Pacific in a violent storm, the tug Pioneer returned to Katalla and reported that the barge with the expedition's supplies could not be found. The steamer Mariposa on Friday turned back from her regular course in answer to a wireless call to help locate the missing barge. The Mariposa discovered the barge under the lee of Martin Island, where the anchors evidently had caught and were holding. She blew signals to the Pioneer, which was up in sight of the barge and put out lines, which, however, failed to hold. The Pioneer put back for new hawsers, and during her absence the sea, which had increased in fury, lifted the barge from its anchorage. When the Pioneer returned with new ropes the barge was nowhere to be seen, and a whole day's search failed to disclose any trace of it. The Pioneer will go out again, but without much hope of success.

The lost supplies cannot be replaced in Alaska, and the expedition may be ordered to return to Seattle. The season is so late that by the time the lost machinery and appliances can be replaced the winter will have begun.

### RACE RIOT IN GEORGIA.

Cumings, Ga., Sept. 8.—Race trouble was precipitated here Saturday following the arrest of two negroes, charged with attacking a white woman, when Grant Smith, a negro preacher, is alleged to have made disparaging remarks about the white women of Cumings. The preacher was beaten almost to death by a mob of white men, before the officers rescued him and locked him in the vaults of the courthouse. The negroes have become aroused and have threatened to dynamite the town if any of their race is lynched. A company of infantry reached Cumings this morning from Gainesville, having been ordered here by Governor Brown.

## IS SOUL MERELY CHEMICAL AFFAIR

DISCUSSION AT BRITISH ASSOCIATION MEETING

Scientist's Address on New Theory Results in Amazing Argument

London, Sept. 8.—After daringly facing the problem, "Is Life Just an Affair of Chemicals?" the British Association for the Advancement of Science went a step further, and debated the question "Is there a soul, and if so, is that too merely a chemical affair?"

At the conclusion of the amazing argument, many members were ready for new ideas, and some even hinted that love, hate, and pity are just chemical processes.

Dr. J. S. Haldane started the discussion by saying: "Circumstances seem nothing but a consequence of physical or chemical changes in the body. Cut off the oxygen supply and in a few seconds all consciousness disappears. It is probable that chemical means he may be reduced to the level of the beasts. If there is a soul, all its manifestations are dependent on physical conditions."

Prof. Geddes, in declaring that the discussion was timely and necessary, said: "We are escaping from the old separation of corpse and ghost, which left nothing but the spook."

Among the scientific things brought out during the day was the fact that there are such things as "drunken flowers," Prof. Keeble declaring that if certain flowers, notably the pure white primula and white sweet william, were associated with alcohol, they would flush scarlet just as human beings unaccustomed to drink would do.

## MAKES GRANT TO VANCOUVER HOSPITAL

City Council Will Set Aside \$15,000 to Meet Outstanding Accounts

Vancouver, Sept. 8.—That the contingency fund for the year might very well have been \$50,000 instead of half that amount, was the opinion expressed by Ald. Ramsey at the meeting of the finance committee, when a discussion took place as to the ways and means of meeting the financial demands on the council.

A letter from Dr. Brydson-Jack was read asking whether the committee would be willing to grant another \$1,000 towards the cadet fund. The committee were of the opinion that since they had already contributed \$4,000 to the cadet fund, and owing to the depleted contingency fund, they could not make any further recommendation.

The request from the hospital board that the city might come to the rescue and grant the sum of \$15,000 in order that the outstanding debts be paid, was unanimously granted, although it had to be decided that the amount would be voted and charged to the contingency fund. Before the resolution was passed, Alderman McNeill asked whether the grant from the government to the hospital of 40 cents in the dollar, included the adjacent municipalities' obligations for services rendered. This question will be left over the hospital board to determine when they confer with these municipalities.

Mr. E. R. Ricketts, in explaining why the committee in charge of the arrangements for the visit of the Duke of Connaught had come before the finance committee to ask for a further grant of \$2,000, said that the request was an emergency one, and made owing to the fact that the provincial government, after submitting plans and agreeing to erect a dam, had withdrawn, with the result that the committee were placed in a position that they had not anticipated.

Alderman McBeath was opposed to any further grant being made, arguing that the money could be better spent in relieving the poor, sick and needy in this city.

Without a dissenting voice, the \$2,000 was granted. Recommendations that the magistrates, Messrs. Shaw and South should be granted an increase in wages was laid on the table with a recommendation to next year's council.

It was resolved also to write to the government recommending that they appoint a British Columbia board of censors to govern all things pertaining to moving picture shows. This resolution was made after a letter had been read from Mr. T. D. Roberts for the Children's Benevolent Association, asking that a picture inspector be appointed to watch the kind of pictures being displayed.

### FRENCH CRIMINAL RESEARCH.

Paris, Sept. 8.—M. Lepine, the famous head of the French police organization, has organized a regular course of instruction for his new board of criminal research. The board was founded some months ago during the excitement caused by the motor murders. It is to consist of picked men chosen from the ordinary policemen of the twenty wards of Paris. They were to form a sort of intermediary between the secret detectives and the ordinary uniformed policeman. The policemen will attend lectures at stated intervals, and at the end of a year will receive a certificate of competency.

## WILL START WORK AMONG CHILDREN

Col. Mapp Outlines Plans of Salvation Army—More Modern Methods

Vancouver, Sept. 8.—Colonel Henry W. Mapp, chief field secretary of the Salvation Army in Canada, who will shortly leave for England to fill a higher post, the exact nature of which he does not yet know, arrived in Vancouver on Saturday, accompanied by Lieut.-Col. J. S. Pugmire, field secretary, and Brigadier G. Burditt, immigration secretary of the army. Col. Mapp is here on his farewell trip, and besides holding several public meetings will confer with local Salvation Army officers regarding several proposed promotions which will soon be made in this city.

"It has been said," stated Col. Mapp, "that while Bramwell Booth was a man of exceptional moral and intellectual attainments, that he lacked the splendid executive ability which enabled General William Booth to organize and hold so compactly together such a large international force of workers. But I know that Bramwell Booth is an even better executive than his father, and under his leadership we may expect increased efficiency. I am not discounting the work of General William Booth, for he was the pioneer in the field and the greatness of his work and the nobility of our revered leader himself is recognized by all sorts of people in all parts of the world."

"I happen to know, however, that during the later years of General Booth's life, many of the important steps taken by the Salvation Army were planned and carried out by Bramwell Booth, and under his leadership we will see more modern methods, while the old spirit of the Army will not be changed. The Army will also enter into new avenues. Heretofore we have largely confined our efforts to the lower strata of humanity, but the plans of Bramwell Booth include a branching out, so as to especially include a closer relation with the actual working classes. The Army will endeavor to enter into the lives of the workers, to help them solve their problems, to attack fundamental economic as well as religious problems and to try and remedy bad conditions by fighting the cause as well as the effect."

"It is our plan," continued Col. Mapp, "to make a particular effort to reach the children, for we realize the truth of the old adage that an ounce of prevention is worth a pound of cure, and we know that it is better and easier to bring up children to lead upright Christian lives than to save them after they have already fallen. The Army intends to start societies and athletic clubs among the children of the working classes, following somewhat after the campaign carried on by the Y. M. C. A. In many other ways the work of the Army will be made more applicable to the complexities of modern conditions, although it will never be political in its nature."

Col. Mapp also stated that the Salvation Army was planning to open an aggressive campaign in China, which has heretofore been almost left neglected. Training schools will be started in the larger Chinese cities and native converts taught the Army methods and then sent out to evangelize the country.

There is a prejudice against foreigners among the Chinese," said he, "and by this method we expect better results. Col. D. C. Lamb, head of the work in China, will arrive in Vancouver about September 15, and then go to England to confer with General Booth. We have received offers of financial assistance from several wealthy men and will wage a vigorous campaign in the new Oriental republic."

### WRONG MAN LYNCHED.

Princeton, W. Va., Sept. 8.—That a mistake was made in the choice of victims in the lynching Thursday night of Walter Johnston, a negro, following the attack on a fourteen-year-old girl, Nita White, is the belief now held by the authorities here. The governor has ordered an investigation into the lynching and has directed Attorney General Pendleton to take charge personally of the investigation. After consultation between Attorney General Pendleton and Judge Maynard, Assistant Prosecuting Attorney Rose, Mayor Pennington and Sheriff Ellison, a statement was issued in which it was declared there is plenty of evidence that Walter Johnston did not commit the crime for which he was lynched. It is said the negro fell far short in the matter of dress and physical appearance of the man suspected.

### CONTROL OF CUSTOMS.

Madrid, Sept. 8.—Despite the reassuring statements which have been circulated for some time, it is apparent that the signing of the Franco-Spanish agreement on Morocco is as far off as ever. The foreign minister, at a cabinet meeting, vaguely declared that the negotiations would terminate before the meeting of the Cortes, for which no date has yet been fixed. It is generally believed, however, that the Cortes will meet in the middle of October.

It is reported in connection with the agreement negotiations that France will not insist on the customs control between the French and Spanish sections. German has protested against this control.

### DOCKERS ON STRIKE.

Superior, Wis., Sept. 8.—Four hundred employees of the Great Northern ore docks here went on strike Saturday, demanding an increase in wages. Industrial Workers of the World agitators are believed to be behind the strike. The Great Northern is now shipping more than 100,000 tons of ore daily from the docks and it is said a prolonged strike would mean the shutting down of most of the mines and would throw thousands of men out of work.

## TWO HUNTERS LOSE THEIR LIVES

THIRD ACCIDENT SINCE  
OPENING OF SEASON

Boat Capsizes and Occupants  
Are Drowned in Lake  
Near Vernon

Vernon, Sept. 8.—George Cox and William Thomas, both well-known in Vernon and district, lost their lives while duck shooting on Swan lake.

A party of seven started for Swan lake and arriving at Anderson's ranch the party separated, two going into the bushes at the Vernon end of the lake while two others crouched behind the rushes to wait for the birds, while the unfortunate victims, George Cox and Wm. Thomas, took a canoe to make a circle of the lower end of the lake and drive the birds from the rushes along the shore to the waiting guns. When the lake had been recrossed those on shore saw that the boat had been upset. How the accident occurred it is impossible to more than surmise. Cox was in the middle of the canoe-shaped punt sitting in the bottom, while Thomas was handling the paddle in the stern. They had fired several shots, and the firing of the last may have occasioned the upset, which happened about 300 or 400 yards from shore. The other members of the party ran along the shore to the nearest point carrying some planks. Before they got there Thomas had sunk.

No one saw Thomas go down except a Chinaman in the employ of Mr. Anderson, who was on horseback near the scene of the accident. He explains, in pantomime, that the unfortunate man sank almost immediately after starting to swim ashore. The most probable reason for his leaving the punt seems to be that seeing that the waterlogged boat would not stand the weight of both, being the better swimmer and the stronger man, he unselfishly determined to attempt to make his way to shore.

The rescue party set to work with frantic haste for Cox was calling to them, "Hurry up, boys, I'm all in." To wire the planks together to make a raft. To their dismay, however, when the work was complete and the Chinaman made the attempt to reach the struggling man, the planking was found to be so rotten and utterly incapable of bearing the weight of a man. They rushed back to get more planks, but by the time they were half way back again Cox had slipped from the boat. Mr. Thomas, senior, who stayed on the bank, called to him to keep cool and hold on to the boat till help came, but he seems to have succumbed to exhaustion after having tried either to climb into the overturned boat or to push it before him to shore. Tired out by the weight of his water-filled gum-boots, sodden clothing and ammunition, the boat slipped from his numbed fingers and whirled round and round above the spot where its occupant had sunk to rise no more.

Cox was employed for several years in his father's hotel. Thomas was one of the old-timers of the district, having been here over twenty years. He was a well-known hunter and guide, and also worked as a prospector and miner. Both men leave widows and young families.

### ROSSLAND MAY REVIVE

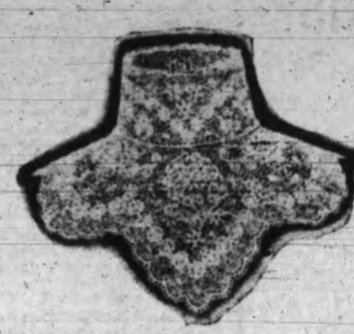

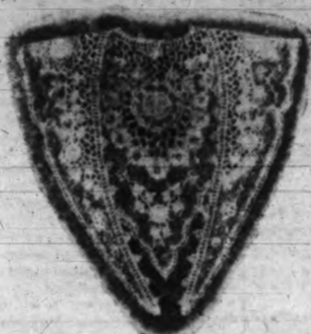

F. August Heinz Reported to be Purchasing Mines.

Vancouver, Sept. 8.—Rossland may have a glorious revival eclipsing the activity of fifteen years ago when ten thousand people from all corners of the earth camped on the slopes of Red Mountain. Mr. F. Augustus Heinz, formerly a Butte copper magnate, now spending a few days in Victoria, is looking to Rossland to regain the millions he won in his single-handed fight against the Standard Oil combination in the Montana camp, and which he subsequently, it is said, lost in Wall Street. Mr. Heinz and several mining engineers in his employ spent several days in Rossland last week looking over various properties. He left there with several options, and on reaching this city informed old friends of his intention to re-engage in mining there. With characteristic enthusiasm he declared that there was still lots of golden wealth to be extracted from the old camp and that he purposed getting busy without delay. He predicted an old-fashioned boom there within the next six months.

## OPTIMISTIC VIEW OF CHINESE SITUATION

New Foreign Adviser Supports  
Recent Action of the  
President

London, Sept. 8.—Dr. Morrison, China's new foreign adviser, takes a hopeful view of existing conditions in that country. In a long letter to The London Times he says among other things:

"We are asked to believe that the president is conspiring for the vice-president's downfall—the downfall, that is to say, of the man who is his mainstay. Could anything be more fantastic? The execution of the two officials, one of whom had taken a prominent part in the outbreak of October last is held to have precipitated a grave crisis, so that the fate of China is again described as trembling in the balance.

"Indisputable evidence was sent by the vice-president to the president that these two arch-conspirators were plotting against the government. They were endeavoring to sow dissension in the ranks and to secure many followers in New Wu Chang, where they and Li Yuan Hung resided. If the execution, in accordance with martial law had taken place there, the difficulties of Li Yuan Hung would have been increased.

"Undeniable evidence sent to the

president justified the head of the government in commanding the police to arrest them and execute them, and the orders were carried out. How can this act lead to a civil war between the South and North? Where is the line of cleavage? Both are equally responsible. The monarchy is dead. Those who attack Yuan Shi Kai, and allege that he is aiming at a dictatorship, are ignoring the facts of his career. Previously, the chief fault alleged against him has been that he is too conciliatory, that he relied too much on the belief that there is no sure foundation set on blood."

## ULSTER'S STAND ON HOME RULE BILL

Dublin Lawyer Gives His Views  
Regarding Opposition  
to Measure

Vancouver, Sept. 8.—"It is assumed generally that the Home Rule Bill will not stand before the House of Lords when it is presented this autumn," said B. J. O'Flaherty, a prominent lawyer of Dublin, Ireland, who is visiting Vancouver.

"The feeling against the bill does not appear to be very strong," he said, "with the exception of the northeastern portion of Ulster. Just how far the Ulsterites intend to go, however, is a matter of doubt.

"Providing the bill is thrown out by the House of Lords for the second

time, it cannot be presented again for two years, but I believe that some sort of legislation having an effect, at least partially the same, will be evolved in the interval."

Mr. O'Flaherty came to the coast seeking pleasure and opportunity for investment, having made the trip to Canada in connection with a legal case tried in St. Paul law courts.

### BURGLAR CAPTURED.

Caught While Endeavoring to Remove  
Bundle of Loot Weighing 500  
Pounds.

Seattle, Wash., Sept. 8.—The residence of James D. Hodge was ransacked from top to bottom on Saturday by Walter Taylor, a young negro burglar, who worked so quietly that the only other person in the house, a maid, never heard him. However, when he dragged a bundle of loot weighing 500 pounds through a door, the girl ran into the street screaming for aid, and two deputy sheriffs, who were passing in a motor car, promptly pounced upon the negro. In his pockets were found the choicest articles of the Hodge family jewels. In the bundle were found the silver plate, silks and bric-a-brac, carefully secured. It is supposed that Taylor had accomplices nearby with a wagon to haul away the plunder, but no wagon was to be seen when the deputy sheriffs caught him. The articles gathered by the robber were valued at \$5,000.

### SNEAK MEASURES.

The Panama Canal Bill is, in the opinion of several of the influential journals of the United States, a "sneak measure," and the most notorious of many such at that. It purported to be simply an "act to prepare for the opening, maintenance, protection and operation of the Panama canal and the sanitation and government of the canal zone," but the New York World calls it "a jumble of injustice, an omnibus bill, into which has been crowded the repudiation of treaty obligations, the acceptance of ship subsidies and free ships, the forcible exclusion of railroads from water transportation, an attempt to confer upon a commission the power to decide what trusts are good and what trusts are bad, and a shocking avowal of indifference, if not hostility, to the great purposes of humanity and civilization that have been crystallized in the treaties of arbitration."

Since the negotiation of the Clayton-Bulwer treaty in 1850 there has been a worldwide understanding that a waterway must some day be cut through the Isthmus of Panama, but it was not until 1903, in which year the United States successfully fostered a revolution in Colombia and created the new and subservient state of Panama, that the project began to be covered by the federal union as a distinctively United States undertaking. The surrender of British territorial rights under the Hay-Pauncefote treaty, as to both spirit and purpose, has never been misunderstood, and the amendment to the original Panama Canal Bill, which has passed the senate and been signed by President Taft, is a clear violation of the compact entered into in the year 1901. There is no better evidence of this fact than the specious arguments advanced by jurists and politicians in the United States to show that the specific clause in the Hay-Pauncefote treaty is capable of other construction than that which has been universally placed upon it. Or, if there is better evidence, it exists in the favored arguments to show that British shipping would not be affected injuriously to any material extent, calculations being resorted to to compute the exact amount.

The term "sneak measure," applied to the amendment of the bill by the United States papers, is reinforced by the sneak methods by which it is attempted to argue the United States out of a breach of international honor and a moral obligation.

### WANTS A PORTFOLIO.

The Conservative Association of Vancouver is said to be furthering the claim of H. H. Stevens, M. P., to the portfolio of mines, which, it is reported, is shortly to be made a distinct department of the federal administration. Just what qualification Mr. Stevens has for the most important portfolio in the government, so far as British Columbia affairs are concerned, we are not yet informed. No one will accuse the member for Vancouver of the slightest degree of technical knowledge of mining affairs. He has never had any experience in mining operations, nor any interest beyond, perhaps, a speculative interest in mining concerns. Neither has Mr. Stevens been altogether a success as Vancouver's representative in parliament. At least many of his Vancouver friends say so. A short time ago it was reported that the postmaster of the Terminal City was to be his guardian. Has that scheme petered out? We doubt if Mr. Stevens could be re-elected in Vancouver even with the prestige of the portfolio of mines in his hand. The rumor is subtly suggestive that Mr. Stevens, like many another of his party, is trying to get under cover.

### COST OF LIVING.

In view of the fact that the price of beef has been again advanced and the advance has reacted upon the prices charged for meat cuts in most of the restaurants of the city, the high cost of living is again a living theme. Nothing could be more satisfactory to the public than a final settlement of the fixed responsibility for the steady increase in food prices. Senator Theodore E. Burton, of Ohio, a supposedly competent authority on matters of finance, has undertaken to set the public right, and he begins by pointing out that "the tariff is not the cause of the high cost of living." Having chosen this assumption for his text, the senator proceeds to prove his contention. His strongest proof of this assertion is that "the most notable increases have been in commodities of which we have a considerable surplus for export, and a tariff can have any material effect on the price." The statement looks like a clincher, but we shall deal with it later in this article. It is a false statement, though quite as plausible as it is false. Having settled it that the tariff is not responsible, Senator Burton proceeds to find explanation of the high cost of living, and his finding is remarkable. He says it is to be attributed to:

(1) The phenomenal progress of recent years.  
(2) The marked inequality of this progress in different branches of human endeavor.  
(3) The inevitable tendency in every progressive era to extravagance and waste in expenditure and to the diminished productive energy of a large share of the population.

The effect of the "phenomenal progress" of recent years has been to make it increasingly difficult for the wage earner to make ends meet, while the plutocrat is made increasingly rich. Surely such a progress is reactionary and in direct opposition to the best interests of society as a whole. Our progress has then been progress backward for all but the privileged classes who were never so luxuriously wealthy as to-day.

The second item in the senator's programme of excuses can be accepted. There has been a "marked inequality" of this progress in the different branches of human endeavor. And the inequality is the more painful to observe, in that all the advantage seems to be going to the protected interests, while the wage-earner is just where he was a long time ago—the helpless dependent upon the whims of protected interests for whom legislation is enacted and the law enforced.

But the last of the senator's reasons is the most remarkable. He says there is a "diminished, productive energy of a large share of the population." And all this going on while it is the proud boast of the mechanician, the inventor and the manufacturer that the triumphs of invention and the manufacture of machines have made it possible for one man to do the work of ten, and more often of twenty. Diminished productive power? With factories and mills often closed because of over-production and because the protected interests refuse to sell at reduced prices, preferring to throw thousands of unprotected workmen out of employment and verge them out on starvation rather than abate one per centum of their enormous profits. It is all because Senator Burton to throw dust in the eyes of the people in this way. Having set out to protect protection, like every other defender of high tariffs, the statesman can be plausible only when he misrepresents.

Senator Burton says "the movement from the country to the city and the consequent effect on agricultural production" has had something to do with the high cost of living. But why do people move from the country to the city? Simply because the protected industries can pay them better wages for work in factories than can be earned on the farm. Men move to the city to earn big wages making machinery to be sold back to the farmer and other consumers at monopolistic prices and the soil is left barren or uncultivated. The farmer cannot pay the price for machinery to take the place of the men who have moved to the city to manufacture it and because of the "diminished productive energy" the land goes uncultivated.

Among the "remedies" proposed by the senator is one which advises the strict enforcement of laws for the prevention of monopoly, and this is a perplexing statement coming after the assertion that the tariff is in no way responsible for the high cost of living. The very genius of protection is the establishment of monopoly. Every tariff, above the levy of tariff for revenue only, is a tariff to establish monopoly. The tariff is the basis of all monopoly and of every monopoly, and there can be no monopoly without tariff protection. Tariff walls around any country are designed to confine the sheep within the fold for the particular ravishing of the wolves within the patriotic fold. While the walls keep out the "foreign" wolves they give the wolves at home the choicest delicacies of the fold for their own slaughter and bacchanalian feasting. Why lop off the branches from a tree that is "monopolizing" the highway when the tree itself is sap-

## September

Will positively be the last month that we will allow a discount of 5% on Coal. Order now and save the discount.

## KIRK & CO.

618 Yates Street and Esquimalt Road.  
Phones 212 and 139

ping the fertility and moisture of the soil in the adjacent field? Why not cut down the tree?

The maintenance of protective tariffs is what makes it possible for the protected interests to nullify the "over-production" of which Senator Burton speaks, and renders its natural benefits disadvantageous rather than advantageous to the producer. The monopolist controls both sale and purchase price, and because he has a monopoly, established by the tariff, fleeces both producer and consumer.

We have had a good many years of protection in many countries and the cost of the elemental necessities of life has gone steadily higher. Every feasible experiment to reduce the cost of living has been tried excepting a reduction of the tariffs. Why not try that?

What should make the average wage-earner suspicious of the tariff is the fact that it is invariably and forcibly defended by the protected interests, and few of these ever fail to get rich quick. The lot of the consumer is relatively much the same as of old, while the plutocrat is a "get-rich-quick" artist who profits by the experience gained in time and is as soulless as a corporation. "There must be a revision of the tariff, and that downward, steadily downward, downward, downward," says Governor Wilson, the presidential candidate. How would it do to give it a trial?

The Winnipeg Telegram works itself into an excited frame of mind over an alleged condition of disruption in the Liberal party on the question of reciprocity. A funny picture, that of Liberals disputing over a "dead" issue. Liberalism the world over usually gets busy with "live" subjects. Just now we do not suppose that Canada is very much agitated over the reciprocity question. Let us settle the navy question first. That is the issue that has the spot-light at the present time.

Some of the "patriotic" Conservatives of Victoria are arranging to hold a celebration of the death of reciprocity. It is hoped that at the "wake" they will be able to congratulate themselves on the "birth" of the Borden naval policy. Or will they decide to bury reciprocity and the "still-born" naval policy of the great Conservative party in Canada together and side by side? 'Twill be worth seeing.

### AWFUL.

The president of the university had dark circles under his eyes. His cheek was pallid; his lips were trembling; he wore a haunted expression. Every now and then he turned and glanced apprehensively behind him. "You look ill," said his wife. "What is wrong, dear?" "Nothing much," he replied. "But I had a frightful dream last night, and I feel this morning as if I—as if I—!" He hesitated and stammered. It was evident that his nervous system was shattered.

"What was the dream?" asked his wife. "I dreamed the trustees required that I should—I should pass the freshman examination for admission!"

### ITS ONLY USE.

A leading theatrical man told a dramatic critic stories as he strolled in the bright, cold weather down the Strand. "There was one chap," said he, "who couldn't get rid of. Dear me, he was persistent. I refused his face seven times and he still kept turning up with it, re-written here and there. The eighth time he came to me I told him firmly it was no use. 'But, sir,' he said, 'is there no possible way you could put my face on the stage?' 'Well,' said I, 'there's one way, but I don't know if you'd submit.' 'Oh, I'd submit,' he cried. 'I'd submit to anything.' 'Then,' said I, 'we'll grind it up and use it as a snow-storm.'"

### LOCATING BY TELEPHONE

From the N. Y. Telephone Review  
The telephone girl in a certain hotel answered a call over the house exchange the other morning about 11 o'clock. When she "plugged in" a man's voice said: "Hello! Is this the so-and-so hotel?" "No," replied the girl, who was slightly surprised. "Is this such-and-such hotel?" "Oh, all right," said the man. "Just woke up and didn't know where I was."

### THE GOLFER'S PROBLEM.

From the Manchester Guardian.  
Golf has succeeded only too well with many busy men; it has saved them; and now they are devoted to it, so that their problem, if they were to be bothered with it, would be how a fit man may become a busy man again.

## AUTO PLUNGES OVER EMBANKMENT

One of Occupants Killed and Two Injured When Car Falls Into Canyon

San Diego, Cal., Sept. 9.—Mrs. Frank Grandier was killed, Frank Grandier was painfully injured, and Mrs. F. Schachitz, the latter of Los Angeles, suffered a fractured right arm and perhaps internal injuries, yesterday afternoon when an automobile in which the party was riding plunged over an embankment on the Banner grade and fell, a tangled mass of wreckage, into a canyon 250 feet below.

The accident occurred fifty-eight miles from this city. The steering gear of the machine had failed to work at a critical time.

### FIRE AT HAZELTON.

Two Warehouses Are Destroyed.—Loss Estimated at \$40,000.

Prince Rupert, Sept. 9.—A \$40,000 fire in Hazelton Saturday morning resulted in the total destruction of the Hudson's Bay Company's warehouse, in which were stored practically all the supplies for the company's interior posts, and which were to have been shipped up-country by pack train.

As these supplies are now reduced to ashes, the interior posts face a serious problem for the winter, unless something can be done to rush in new stocks before winter closes in. It is understood that an effort will be made to replace the supplies, but whether the new stock can be rushed to Hazelton in time to reach the posts before the trail becomes impassable remains to be seen.

The fire also destroyed the warehouse of Messrs. Broughton and McNeil. Messrs. McDonald and McAfee lost \$5,000 worth of beer. Had there been any breeze the entire town would have been wiped out.

### WELCOMED TO TOKIO.

U. S. Secretary of State Knox Given Cordial Reception.

Tokio, Sept. 9.—The American secretary of state, P. C. Knox, the first special envoy to the funeral of the late Mikado to reach Japan, arrived at Tokio this evening. Mr. Knox and the American party was given a cordial reception.

Mr. Knox was met at the Tokio station by Prince Tokukawa, representing Emperor Yoshihito. Prince Henry of Prussia, the representative of Emperor William, will arrive here tomorrow. Prince Arthur of Connaught, the eldest son of the governor-general of Canada, who will represent King George and later present to Emperor Yoshihito the Order of the Garter, bestowed by the King, will reach Tokio on September 11. Prince Henry and Prince Arthur will be met personally by the Emperor at the railroad station.

### POLICE GRAFT.

Mayor of New York Will Be Called Before Aldermanic Committee.

New York, Sept. 9.—According to plans announced early to-day, Mayor Gaynor will be the first witness this afternoon when the aldermanic committee, appointed to investigate the alleged police graft brought up through the murder of Herman Rosenthal, holds its first session.

The committee is determined, it is said, to get from the mayor his views in detail of the vice and gambling situation and his ideas of the duties of the police department in suppressing the evils.

The trial of Cornelius G. Hayes, deceased inspector, is to be resumed tomorrow.

The trial of Lieut. Becker, charged with the Rosenthal murder, is set to begin Thursday morning.

### AUTUMN EXHIBITIONS.

British Columbia's fall fair dates ranging from September 10 to October 31st. Following is the list:  
Arrow Lakes—October 4-5.  
Alberni—September 13.  
Armstrong—October 14-17.  
Burlington—September 23.  
Bella Coola—October 30.  
Cowichan—September 20-21.  
Comox—October 2.  
Coquitlam—September 20.  
Chilwack—September 19-21.  
Central Park—September 12-13.  
Cranbrook—September 13-19.  
Delta—September 20-21.  
Grand Forks—September 26-27.  
Greenwood—September 30.  
Golden—September 24-25.  
Islands—September 15.  
Kent—September 12-13.  
Kamloops—September 18-19-20.  
Kelowna—September 25-27.  
Kaslo—October 15.  
Langley—September 25.  
Mission—September 24-25.  
Maple Ridge—September 25-26.  
Matsqui—September 26-27.  
Nanaimo—September 17-18-19.  
N. and S. Sanich—October 4-5.  
Nerrit—September 25.  
New Westminster—October 1-5.  
Nelson—September 23-24-25.  
New Denver—October 2.  
Fentleton—September 23.  
Revelstoke—October 8-9-10.  
Richmond—September 25-26.  
Shawnigan—September 18.  
Salmon Arm—September 27-28.  
Summerland—October 30-31.  
Surrey—September 24.  
Trail—September 25-26.  
Vernon—October 23-24.  
Windermere—September 20-21.  
Victoria (Provincial Exhibition)—September 24-28.

### JUDGING BY APPEARANCES.

The court was having trouble getting a satisfactory jury. "Is there any reason why you could not pass impartially on the evidence for and against the prisoner?" asked the judge of a prospective juror. "Yes," was the reply, "the very looks of that man makes me think he is guilty."

"Why, man," exclaimed the judge, "that's the prosecuting attorney."

# Millinery Opening Announcement

We beg to announce Our Millinery Opening for Tuesday, when we will take very great pleasure in exhibiting the very newest creations from the world's fashion centres

Opening the Fall Season With a Splendid Assortment of Coats and Costumes to Choose From

AND they are the finest examples that have appeared in the fashion centres. Our buyers were instructed to be sure to get the latest and most popular styles, the most dependable garments, and to consider the price as a secondary consideration. The beautiful assortment of garments that are now ready for your inspection is an ample demonstration of the fact that the buyers have done their work well, and the results will prove satisfactory to all who are interested in stylish clothing at reasonable prices. French, German, English and American markets have been carefully searched, the tendencies of fashion well considered and now we have the finest showing of women's garments that has ever been seen in the Spencer stores. We invite you to inspect these goods and compare them with any goods that you have purchased on previous occasions and feel sure that you will be pleased with the qualities and styles now spread before you.

PRICES ARE WELL WITHIN THE REACH OF ALL

DAVID SPENCER LIMITED

## CANADA MUST CHANGE BORROWING SYSTEM

Financial Critics Discuss Hand to Mouth Policy of Municipalities

Practically every financier and business man returning from Great Britain agrees that Canada must change her system of borrowing. They state that we have been going to London too often and have been paying too little for our money. The following interview with a prominent financier is typical of what they all say:

"A radical change will have to be made in our whole system of civic borrowings," was the comment made by a prominent Canadian financier who has just returned from London. Continuing, he said: "We have had too much of a hand-to-mouth policy both in the matter of civic improvements and civic borrowings. Very few of our so-called improvements are permanent and as a result they are being constantly replaced. This means that loans which were secured for permanent works are frittered away in making temporary repairs. I venture to say that in the most of our cities a loan for permanent pavements extending over a period of fifty years will be absorbed four or five times during that period. In other words, the pavement will have to be renewed four or five times while the loan is in operation. If a separate loan is not made for each improvement we pinch a little off other loans which we make from time to time for other purposes and apply it to our pavement account."

Canadian cities do not look far enough ahead and have too little system in the matter of civic improvements. Nearly all our cities have grown very rapidly and water mains, sewerage systems and other public works soon become outgrown. There is not one city in a hundred that looks far enough ahead and builds accordingly. The result is continuous confusion and greatly enhanced costs, water mains are put down sufficient only for the needs of the day; in a few years they are torn up to make way for larger ones, the same is true of sewers, telephone conduits, etc.

What we want is a systematized method of building our streets and the various utilities which make use of them. While it would help an individual city to adopt a proper system, we need to go farther and have every city in the Dominion adopt a similar policy. "What system would you suggest?" was asked. I would suggest that instead of the present hand-to-mouth policy that city engineers should build huge concrete conduits and in these conduits place the sewer pipes, water mains, telephone and telegraph wires and everything else which may require to use the streets. The initial cost would be somewhat greater but there would be a tremendous saving in the long run. Streets would not be torn up then every time that enlargements and additions were required. Unless some such policy is adopted and we go less frequently to London for money for civic improvements, Canadian credit is going to be seriously affected. To my mind the tendency is towards fewer loans for which we will be forced to pay higher rates of interest than we have been accustomed to paying in the past."

The recent failure in Toronto to float a loan in London following similar failures by Montreal and Vancouver

BOARD OF SCHOOL TRUSTEES

## TEACHER WANTED

Applications from female teachers will be received by the undersigned, up to 12 (noon) on Tuesday, 10th September, 1912.

Applicants must hold not less than second class certificates, and state experience and salary expected.

J. S. FLOYD,  
Secretary.

Oak Bay, B. C., Sept. 5, 1912.

## BRIEF NEWS OF THE CITY

**If It's Keys?**—The answer is Waites & Knapp's, 610 Pandora street. Phone 2439.

**Correction of Stupid Blunder**—Phone up 829 for The Thomas Caterall Co. Ltd., instead of erroneous number and address given in the local telephone directory. General Builders, 921 Fort St., Victoria, B. C.

**Four Per Cent.**—You can deposit your money at 4 per cent. interest with The B. C. Permanent Loan Company and be able to withdraw the total amount or any portion thereof without notice. Cheques are supplied to each depositor. Paid-up capital over \$1,000,000. Assets over \$3,000,000. Assets over \$1,000,000. Branch office, 1210 Government St., Victoria, B. C.

**Hanna & Thomson, Pandora Ave.**—Leading funeral furnishing house. Connections, Vancouver, New Westminster and Winnipeg.

**"Nag" Roof Composition**, fire-proof and moss killing. See or phone Newton & Greer Co., 1326 Wharf street.

**Money to Loan.**—We have money to loan at 8% interest on improved city residence property on easy repayment terms. Builders will do well to inquire. The B. C. Permanent Loan Co., 1210 Government St.

**Special Notice.**—Carload of shingles, extra quality received. Special prices. R. A. Green & Co.

**Expert Locksmithing.**—Instantaneous key fitting. Jas. Waites, 644 Fort St. Phone 448.

**"Sepias"**—Soft, delicate, refined. The last word in high grade photography. The Skene Lowe studio, Douglas and Yates.

**S. P. C. A.**—Cases of cruelty, 'phone, 'phones: Inspector Russell, 1921; secretary, L1732.

**Ladies' Tailor.**—Wm. Stewart, men's and ladies' tailor, room 5, Haynes Bldg., Fort street.

**Contractors, Look!**—CHOICE FIR DOORS, WINDOWS, GLASS, etc., in stock. R. A. Green & Co., Phone 3351. Shop at 1155 North Park street. Estimates free.

**Teaming.**—G. F. Disminger, dealer in coal and teaming. 'Phone 7292.

**Take a five days' trip** around the Sound, by steamer of P. C. S.S. Co. Phones 4, 2611 or 2621.

**Meet me at the Bismarck.**

**Roofs made fire-proof** by Newton & Greer Co., 1326 Wharf street, makers of "Nag" Roof composition.

**What's the Matter?**—What's the matter with a mat or two? Sets of table mats made of Japanese fibre. Handy and cheap. In sets of six, 25c, at R. A. Brown & Co., 1302 Douglas Street.

**Economy Wet Wash Laundry.**—Family wash, 75c a week. Clothes returned on the following day, thoroughly washed. Phone 3339. 2612 Bridge Street.

**Caught in the Act.**—Mr. Rat was caught in the act of getting the cheese from one of our "Hold 'Em" rat traps, made of heavy wire, is easy to set, will catch a dozen at one setting, is strong, durable and effective. 90c, at R. A. Brown & Co., 1302 Douglas street. Phone 3712.

**Auto and Taxi.**—Cab stand, good cars, good service, all hours. Corner Fort and Douglas Streets. 'Phone 2216.

**Lectures on Forestry.**—A series of lectures on forestry will be given in the public schools of this city and province during the coming winter. Chief Forester McMillan is arranging the matter at present with the education department.

**Widening of Oswego Street.**—A notice has been posted providing for the expropriation of 35 feet from the MacDonald property on Oswego street to permit the widening of the street to a uniform extent before permanent paving is done.

**Healey Arbitration.**—The Healey arbitration, which was set for this afternoon, has been adjourned till Wednesday. No further dates have yet been fixed on the Humpback arbitrations for property required for the site of the reservoir.

**To Visit Local Fair.**—On the concluding day, Saturday, September 28, H. R. H., the Duke of Connaught will visit the annual fall fair of the British Columbia Agricultural Exhibition. Special arrangements are being made by the fair management for the reception of the Governor-General on the grounds.

**A Pie Social.**—The Ladies' Aid Society of Grace English Lutheran church, corner of Blanchard street and Queen's avenue, will give a pie social to-morrow evening in the church parlors. The ladies have also prepared a musical and literary programme and an enjoyable evening is looked forward to.

**Sale of Work.**—The ladies of St. Mary's (R. C.) church, Victoria West, will hold a sale of work at Semple's hall, on Wednesday from 2 to 11 p. m. Tea will be served during the afternoon. A special programme is being prepared for both afternoon and evening. A most enjoyable event is anticipated. All are cordially invited.

**Pembroke Street.**—The city clerk's office directly repudiates any responsibility for the delay in sending out notices for the Pembroke street widening, to which Alderman Gleason drew attention at the streets committee on Friday, and a letter book showing the advising of the committee's action of August 16 is produced in support of this claim.

**Nagans Case.**—A committee sat this morning at the city hall to hear a claim for damages for loss to the premises of J. N. Nagans & Co., arising out of the paving of Cormorant street, when goods in the basement of the store were spoiled. The city alleges contributory negligence, and already once reported upon by a committee the matter is sent back for further information, which is now being collected.

**Held Farwell Meeting.**—At a luncheon held in the Westholme grill on Saturday afternoon, a reunion of the members of the Canadian Society of Forest Engineers was held. Dr. R. E. Fernow was the guest of honor, he being the dean of the forestry branch of the Toronto university since its inception five years ago. Others present were: Hon. W. Ross and R. E. Benedict, assistant forester of the province.

**Gift to Library.**—A very useful gift has been received by the Librarian at the Carnegie library in the form of a couple of cases of the Civil Engineer Review, comprising thirty large volumes. These books which were presented by M. J. Monckton, of Cowichan, contain a full account of the minutes of the proceedings of the Institute of Civil Engineers of England. As there are a large number of British engineers in the city it is hoped that the set will prove of great usefulness.

**Building Permits.**—Building permits were taken out to-day by James Simpson, of Superior street, for a green house; G. S. Ford on Davis street, for two frame houses, five rooms, costing \$1,700 each; J. M. Caswell, for a five-roomed house on Sayward avenue, costing \$2,000; S. A. Virtue for a six-roomed house on Trent street, costing \$3,500; W. Hinder for a five-roomed house on George street, costing \$2,200, and by G. W. McIntosh for a six-roomed house on Amphion street costing \$2,400.

## AUTOMOBILE TOOLS

and Contractor's Supplies, Etc.

**Walter S. Fraser & Co., Ltd.**

Telephone 3 P.O. Drawer 788

## TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, September 9, 1887.

Henry George and Dr. McGlynn will speak at 240 mass meetings in New York which have been arranged by the united labor party.

Paris, Sept. 9.—Sarah Bernhardt has lost her voice completely, the result of a cold caused by imprudence and exposure at her country seat in the South of France. She cannot speak above a whisper and it is feared the injury is permanent.

The Emperor of Japan is about to start a printing office in Japan having got the compositors, pressmen, bookbinders from the United States.

S. Perry Mills returned from Plumper's Pass last evening. He is delighted with the locality and calls it a rural elysium.

Yale's glory has departed. The police force has been dismissed. Mr. Thomas L. Fawcett, of this city, has been sent to the place to take charge of the government buildings.

Mr. P. Summerfield entered upon his duties as water commissioner to-day and will have control of the extension to be made by the city. A London cablegram of the 8th inst. states that the Imperial government has assented to granting the Canadian Pacific Railway an annual subsidy of £45,000 for carrying the mails to and from the East.

Rev. Dr. Fraser (Victoria) was elected moderator at the Presbytery of Columbia held this week in Vancouver.

**Board Meets.**—The Y. M. C. A. board of directors will meet to-morrow evening at 8 o'clock. This is the regular monthly meeting which was to have taken place at noon, but which has been postponed until the evening.

**Automobile Accident Yesterday.**—An accident resulting in the partial wreck of an automobile took place on Yates street yesterday afternoon about 5.30 o'clock. A closed motor, with landauette body which was being driven by Victor Hill, came into collision with a R. C. E. R. car, which was drawing up near the corner of Government and Yates. The motor car was hurled to the pavement, the right side of the car being completely wrecked. Fortunately none of the four occupants suffered severe injury, and the wrecked car was soon hauled off, and traffic proceeded as usual.

**Development League.**—The inquiries at the office of the Vancouver Island Development League this morning were mostly from Canadian applicants, quite a large number coming from the province of Quebec, and another batch from the prairies. The climate of the feature most asked about, and seems to excite a great deal of interest in the East. This morning the secretary of the league sent off at least fifty sets of literature to different parts of the world, including the book on Victoria, on fishing and shooting, and on the fruit farms of the island.

## LADIES! DON'T MISS THIS OPPORTUNITY

We have only nine days left until we have to move out of this store. Come this week and get your fall supply of underwear, hosiery, sweaters, overcoats for the boys, jackets for the girls; corsets, flannelette nightgowns, fancy goods and every thing for the baby. Don't delay but come to-day. Save dollars by buying now. The place—742 Fort street. Mrs. J. E. Elliott's stock. W. G. McLaren & Company.

## ALBERNI FAIR.

Will Be Held on Thursday—An Excellent Programme Arranged.

The annual fair of the Alberni Agricultural and Industrial Association will be held on Thursday next and not on Friday, as was erroneously announced in the list of fall fairs recently issued.

A glance at the prize list suggests the excellence which has always characterized these exhibitions being representative of the products of the fertile country tributary to Alberni.

## CITY COUNCIL.

Agreement Over Sooke Harbor Water Supply Will Be Submitted for Approval.

At the meeting of the city council this evening a report will be presented on the arrangement between the city through the water commissioner, and the Sooke Harbor water committee through F. A. McDiarmid, for a temporary supply of water from a creek in the vicinity of the harbor until the Sooke Waterworks can be opened. It is understood that the city will grant the small concessions asked in the way of abandoning the rights over portion of the watershed vested in them nearly 40 years ago, and an agreement satisfactorily to both parties will be reached.

There are a number of matters to come before the council this evening, but the transfer of the office of water commissioner to the city engineer is the only one which is likely to be controversial.

## THE NEW CONTRACTS.

Monthly Meeting of School Board on Wednesday—Outside Schools and Duval Gathering.

At the meeting of the school board on Wednesday the board will transact the routine business of the month. The two contracts for Oaklands and Burnside schools have to come up for a date to be set for completion, and the committee, with regard to heating and ventilating, are expected to report on the system to be selected from the tenders received by the trustees.

In connection with the children's appearance before the Duke and Duchess of Connaught next month, it is understood that an attempt will be made to widen the scope of the gathering, and bring the rural schools, at any rate, those suburban to Victoria at Saanich, Oak Bay, and Esquimalt, into the assembly, as the Central school grounds could accommodate twice those who will be present from the city schools on the memorable occasion. The progress on this proposal will be reported to the board on Wednesday for confirmation.

## ARTHUR BEASLEY'S CASE.

Central School Incident Fully Investigated—How the Accident Happened.

The committee inquiring into the incident at the Boys' Central school on Thursday, when Arthur Beasley sustained a fractured arm, will report to the board meeting on Wednesday on the subject, following the investigation Saturday.

From the evidence of other lads who were present when the incident occurred it was gathered that the master, Mr. Jenkins, was standing on a platform, and called the boy out from his seat for pushing or striking another boy in fun.

Some remark was made, it seems, by the master, after remonstrating with Beasley for his conduct, that if he wanted a shaking he should have it. He thereupon put his hand on the boy's collar and pushed him. As Beasley recovered his balance he caught a foot in the prong of the desk and fell sideways on his right side—from the platform to the floor, fracturing the limb he put out to save himself. As

## Earth's Sweetest Music Is Produced From GIBSON PEERLESS MANDOLINS

For accompanying the human voice and for instrumental work, no instrument made compares with the Gibson Mandolin for sweetness of tone and simplicity of operation. Unless you have tried, you have no idea how easy it is to learn on one of these instruments.

Just picture the long winter evenings at home with one of these instruments for companion. Think of the pleasure it will give to you and to others. Think of the standing the ownership and mastery of one of these Mandolins will give you among desirable people, socially.

## Come in and Talk It Over With Us. We'll Make the Terms Suit You.

Other good instruments of Gibson quality are Mandocellos and Guitars. Leather cases for all these Instruments.

# SENSATIONAL REDUCTIONS IN OUR MAMMOTH REMOVAL SALE

Yes, you can truly say that these reductions are sensational; in fact they are so extraordinary that they will be the talk of the town for some time to come. Have you ever moved? Then you know what a tremendous expense and trouble it puts you to. Can you imagine what confronts us in our moving our large stock, etc., to our new quarters? We want to minimize the expense and trouble just as much as possible. Consequently, you can readily understand why we tag our stock with such prices as to positively insure rapidly decreasing it. The offerings below are a direct appeal to your pocketbook—an appeal that you cannot afford to overlook.

## An Unparalleled Reduction on Medium-Grade Suits

You couldn't get a better knockabout suit than this. It will stand the roughest wear and is real stylish, too. Great variety of patterns in tweeds and serges. Regular \$15.00.

Removal Sale Price  
**\$9.75**

## Highest Grade Neckwear Reduced

It is a question whether the cut made on our stock of highest grade ties has ever been equalled. They include imported English silks and Paisley's. Were good values at \$1.75, \$2.00 and \$2.25.

Removal Sale Price  
**\$1**

## Very Best Quality Underwear Cut Heavily

The quantity involved and the value of the garments make this offering beyond precedent. Combination Underwear, Ellis & Turnbull spring needles. Sizes up to 46. Fall and winter weights. Selling heretofore at \$5.

Removal Sale Price  
**\$3.75**

## New Fall Suits on Sale

Both for dress and business purposes, these suits can't be beat. They possess an individuality and character that are seen very rarely in ready-made clothes. Regular \$30, \$42.50 and \$35.00.

Removal Sale Price  
**\$21.75**

## Nobby Hats at Slashed Prices

These hats can't be matched for style or quality. Included are all shapes and shades. There is one here just suited to your appearance. Be sure and get it to-morrow. Originally sold at \$3.50.

REMOVAL SALE PRICE \$2.25

## Another Suit Bargain

Here is a remarkably good suit for the money. It was even low at its regular price. They embody fine fabrics, better tailor work and more style than you generally see, at half the price; \$25.00 Suits

REMOVAL SALE PRICE \$18.25

## Newest Fall Shirts at Removal Sale Price

If you are of precise taste, this is a shirt that will appeal to you. Get it at a price of a shirt of lower quality. Were \$3.

REMOVAL SALE PRICE \$1.95

## Price of Nifty Shirts Lowered

These are the standard W. G. & R. brand. Soft and pleated fronts in different patterns. Their regular selling price was \$1.75 and \$2, but the expense of moving warrants putting them under the

## BEES TAKE SERIES AT SPOKANE—

### KAUFMANN WINS AND LOSES SUNDAY

## Locals Take Five Out of Nine Games From Leaders—Seattle Closing in on First Place

Yesterday's Results.  
First game—Victoria, 4; Spokane, 1.  
Second game—Spokane, 11; Victoria, 3.  
First game—Tacoma, 6; Seattle, 3.  
Second game—Seattle, 7; Tacoma, 2.  
Vancover, 6; Portland, 1.

Spokane, Sept. 8—Spokane and Victoria divided a double-header here yesterday. Rain in the early part of the first game caused a suspension of play for twenty minutes and left the field very heavy. Three pitchers worked for the home club in the first game and were hit hard. Spokane hit well in the second game and piled up 11 runs in the five innings played. The game was called by agreement.

## BROWNIES TAKE FINAL GAME OF SERIES FROM NICK

Portland, Sept. 8—Vancouver crept a little closer to the Northwestern League leadership Sunday by defeating Portland in the last game of the series, 6 to 2. Twice toward the close of the game Portland had the bases full, but couldn't score. An attempt was made to play two games, but the visitors had to run for the train, and the second game was called.

## AVERAGES SHOW ZIMMERMAN AND COBB STILL LEADING

"Heinie" Zimmerman and Tyus Cobb continue to hold down their regular positions in front of the National and American league hitters. Sweeney, the big Bostonian, of a tall end club, is giving Zimmerman a race, and according to the last averages is but 11 points behind. Speaker is a closer second to Cobb than Sweeney, being but 6 points behind his rival. The official averages follow:

National League. A.B. H. Ave.

Zimmerman, Chicago ..... 46 173 .389  
Sweeney, Boston ..... 45 171 .377  
Meyers, New York ..... 345 121 .351

## YOKOHAMA FAILS TO REPORT LAST NIGHT

Time of Arrival of Maru Not Known—Frankmount Due—Sado Sailing

No word has been received here as yet as to when the Maple Leaf liner Frankmount, or the Nippon Yusen Kaisha steamship Yokohama Maru, will arrive in port. It was expected that the latter would be reported by wireless last night but none of the west coast stations could get in communication with her. The agents are expecting her in port from the Orient on Wednesday. She is bringing a cargo of 500 tons for Victoria and also has a good crowd of passengers.

The Frankmount, which is coming from New York, is expected to-morrow, but as she is not equipped with wireless it will not be known until she is sighted by the look-out at Tatoosh just what time she will come into port. The steamship has about 800 tons of general cargo for this port, including electrical machinery, plates, tank heads and merchandise.

To-morrow afternoon the Nippon liner Sado Maru, will clear from this port bound for Yokohama and Hongkong. She will take out about 200 Japanese steamer passengers and will also have her saloon well filled. Her holds will be crammed to their capacity with cargo. She has loaded 5,000 tons of flour at the Seattle and Tacoma mills and also several thousand tons of steel plates, salmon, lumber and sewing machines.

Word was received here to-day by R. P. Rithet & Co., stating that the steamship Seattle Maru, of the Osaka line, will leave Victoria one day ahead of her schedule. She will sail from this port on Tuesday next, instead of Wednesday. It is also announced that the steamship Mexico Maru, which has been held in the Orient seven days by quarantine officials, will sail from the Sound on Saturday, October 5, which will give her but seven days on this side of the Pacific.

## HEAD LIGHTS

Bound for Holberg and way ports the C. P. R. steamer Tees, Capt. Gilliam, left port on Saturday night with a good crowd of passengers and considerable freight.

The steamship City of Puebla, Capt. Paulsen, will sail from this port for San Francisco on Wednesday morning. All the passenger accommodation has been reserved.

The C. P. R. steamer Princess Sophia, Capt. Campbell, will arrive in port to-morrow from Skagway.

## GEORGE TAKES ALLEN PLAYERS TO RUPERT

Prince Steamer Cleared for North This Morning—Last Trip Was Good

To fill a ten-day engagement in Prince Rupert the Allen players, who finished a successful season in this city on Saturday night, left here this morning aboard the Grand Trunk Pacific steamer Prince George. Capt. D. McKenzie. The party included Mr. and Mrs. Allen, Verna Felton, Miss Hudars, Miss Farnsworth and Messrs. Clapp, Harris, Mitchell, Stokes, Kenck and the musicians who accompany the show. Several theatrical troupes have visited Prince Rupert within the past few months and all of them have reported successful engagements there. Being so far from the other coast towns it is expensive for a company to journey to Rupert but the people of that town patronize shows well and the promoters generally come out with a good roll.

The Prince George arrived from Stewart and Prince Rupert on Sunday morning after a pleasant trip. Capt. McKenzie reports having had splendid weather throughout the trip. One hundred and forty passengers came south on the steamer, of which number 90 were saloon. Sir George Doughty, Lady Doughty and their son W. Doughty, were among the passengers on the vessel. Sir George has been to the Queen Charlotte Islands inspecting the new fish plants which were established there this year.

Other passengers on the George this morning were W. C. Boyd and son, C. Leavitt, W. Egan, R. Ritley and Miss J. Patterson. The northern trip of the George will be about the best she has had for several months, as the Allen players will give concerts the two nights the steamer is at sea during her run from this port to Prince Rupert. A good crowd of passengers will join the George at Vancouver.

Seventy-five tons of general freight for the Queen Charlotte Islands and Prince Rupert was taken on by the Rupert this morning.

### VICTORIA ON WAYS.

This afternoon the C. P. R. steamer Princess Victoria, Capt. Hickey, was hauled out on the E. C. Marine ways to have her hull scraped and painted. She will return to the triangular run on Wednesday, leaving at 2:45 o'clock in the afternoon for Vancouver.

## NORTHLAND STRIKES IN ALASKA WATERS

IS HARD AND FAST ON TONGAS NARROWS REEF

Steamer Was Overrun by Barge She Was Towing—Lightering 500 Tons

Driving on to the rocks of Fong Reef, Tongas Narrows, Alaska, at full speed and then being jammed by the barge Washington, which she was towing, was the mishap which overtook the steamer Northland, of the Northland Steamship Company, on Saturday night, while she was southbound from Alaska mines to Seattle with a full cargo of ore. According to the latest advices she is resting on an even keel and is not averted to a heavy swell.

Before the Northland was floated it will be necessary to lighten 500 tons of the ore which is in her hold, and hopes are held that she will be floated on the high tide this evening. As she has a good hold on the rocks and has some water in her hold, it is believed she will need the assistance of some other vessel to haul her off. It is more than likely that one of the many steamers plying to Alaska ports will hear the signals of the Northland and proceed to her assistance.

The steamer struck heavily and the big barge she was towing, which was also loaded with ore, over-ran her and inflicted considerable damage to her stern. The extent of the damage to the vessel is not yet known, but it is understood she will be able to continue her voyage south to Seattle without any assistance.

The Northland is a steel steamer and is used as a freight vessel. She has been operating to Alaska ports for a number of years and is well-known by mariners of this port.

## FINE VOYAGE AROUND HORN FROM HAMBURG

Serapis Makes Good Run Up From Frisco—Has Nitrate for Victoria

Completing one of the finest passages ever logged from Hamburg to this coast by a German liner, the steamship Serapis, Capt. Walther, of the Kosmos line, came into port yesterday morning. All the way down the Atlantic, through the Straits of Magellan and up the Pacific, nothing but the best of weather was encountered by the Serapis. While heavy swells were met at times, it was seldom that any water found its way on deck. The weather from San Francisco north was splendid, and the Serapis made port many hours ahead of her schedule, as she was not expected to dock until late last night or early this morning.

The Serapis was piloted up to the dock of the Victoria Chemical Works, and immediately after she was cleared a gang of longshoremen commenced to put off the 300 tons of nitrate consigned to this port. Capt. Walther expects that all the local cargo will be out of the ship late this afternoon, and he will depart at once for Sound ports. The Serapis is nearly empty at present, having only small shipments for Tacoma and Seattle. A large outward cargo awaits the Kosmos liner at these ports, including much salmon, lumber and flour.

It is very seldom the Kosmos liners coming to the Sound fail to call at Victoria. The port is gradually being worked into the ports of call of this line, and it is expected that before long it will be permanently included in the list. The Victoria Chemical Works are consuming such large quantities of nitrate at present that the Kosmos liners find it profitable to call to this trade. Every vessel of the Kosmos line, which has come to the Sound during the past six months, has called at Victoria.

## FISHERY BOATS OVERHAUL

The fishery protection steamer Gunbird is now in port undergoing repairs. She will return to the west coast in a few days. The William Joffile was also on the ways last Friday having her hull painted.

## TRAMPS ARE IN CLOVER

Owners of This Class of Vessel Are Making Hay While the Sun Shines.

For the nonce, owners of tramp steamers are holding the upper end of the shipping situation. They are making hay while the sun shines and reaping the full benefits of the advance in rates, while the liners have only succeeded in making slight increases in their tariffs, which have not been in proportion to the rise in the general freight market. Nevertheless, where "tramps" have been put on the berth by the regular line, the latter have had to pay full charter rates not

covered by the advances received from the shippers.

Tramps are thus enjoying the advantages of freedom. They do not, like liners, depend on regular customers, who, on occasion, hold the rod to some purpose over the heads of the companies they support. The big shippers in regular trades are generally able to resist a sharp advance by veiled suggestions of bringing in opposition. Hence it is that the present earnings of regular lines are but a pale reflection of what it is possible for the tramps to earn, free from the coercion of regular supporters, and subject only to the law of supply and demand.

## FULL OF LIGHTHOUSE STORES QUADRA GOES

Off for West Coast To-day—Protest Against Burnaby Shoal Buoy Unjustified

Bound for the west coast with stores and supplies for the lighthouses as far north as Clayoquot and acetylene for the recharging of the beacons, the steamer Quadra, Capt. Macpherson, of the marine and fisheries department, left port this morning. The Quadra has a large amount of work to do, but it is expected she will be back in port in ten days' time. When she left port she was deeply-laden, having large quantities of coal, lumber and general supplies for the lighthouses.

Shipping men here are indignant over the action taken by the Vancouver Shipmasters' Association at their regular meeting held last Friday night. A new float light and bell buoy was placed on the Burnaby Shoal, just inside the Vancouver Narrows, by the marine and fisheries department last week, and the association in the Terminal City is now howling its head off at the officials of the department. The statement that the owners of any vessel which knocked the buoy out of position would have to defray the expense of restoring the buoy to its proper place, and also be heavily fined is working upon the nerves of the members of the Shipmasters' Association.

This morning several shipping men explained the grievance of the Vancouver Association very plainly. In the first instance the association consists for the most part of freight men, and very few of the masters of passenger steamers have anything to do with it. It is the habit of the tugboat men to await until the flood tide in the Narrows, and then drift through, permitting the booms to drift about the Narrows. If the tugs used their power they could restrict to a great extent the swinging of the booms. The tugboat men fear that as their booms are drifting about the Narrows they may come in contact with the buoy and tear it apart.

While the tugboat men may desire to protect themselves there is a far greater amount of shipping to be looked after than that of the tugboats. Passenger and mail boats must receive first consideration in every case. It will be remembered that during the fog season last year the steamer Princess Charlotte and several other vessels were held in Vancouver for a number of days unable to get out of the Narrows. With the light and bell buoy, steamers will be able to get in and out of the harbor in fog. The Vancouver shipmasters wired to Ottawa, asking not to have the light placed on Burnaby Shoal until the dredging in the Narrows is completed. It is not expected that this request will be granted as the masters and officers of the big passenger boats carry more weight than the tugboat men.

It was upon the recommendation of Capt. Geo. Robertson, agent of the department, who knows full well the difficulty of navigating the Narrows in a fog, as he commanded one of the largest coasting steamers, the Prince George, that the light was established, and it is too bad that his efforts should be responded to, with a protest.

## IN MEMORY OF GENERAL BOOTH

San Quentin, Cal., Sept. 9.—Nearly 1,000 men in stripes paid tribute to the memory of General William Booth, founder of the Salvation Army, at memorial services held yesterday in San Quentin prison. Abraham Ruef made the main address. He eulogized the great Salvationist, especially on his work for the poor and "the man behind the bar."

## J.B.A.A. TRACK MEET POSTPONED A WEEK

Will Take Place September 21  
—Northwest Meet Next  
Saturday

The annual track meet of the James Bay Athletic Club has been postponed one week and will take place Saturday, September 21, thus leaving an open date at Oak Bay park next Saturday for the postponed meet of the Northwest Cycling and Athletic League. The heavy rain on Saturday prevented the latter meet from taking place and it will be held in a week's time.

Much to the disappointment of local track men, the V. A. C. will be unable to send athletes here to the J. B. A. A. meet as several of their best men, including McConnell, will be attending the Pacific Coast championships in Oregon. However, the locals have added a bicycle race, one mile, running, 5 miles, running, and a relay race between J. B. A. A. teams. H. Beasley, likewise T. Gallon, and others have commenced training for the B. C. championships which take place in New Westminster in October. It is also Beasley's intention to enter any event offering in the Northwest meet on Saturday next. Percy Beasley, his brother, is training hard for the mile event and, in all probability, will accompany his brother to the British Columbia championships.

## BASEBALL NOTES

A Seattle fan picks an all-star team from the Northwestern League as follows:

TEAM	POINTS
Meyers, Spokane, 1b.....	318
McDowell, Portland, 2b.....	319
Shaw, Seattle, 3b.....	374
Raymond, Seattle, s.....	376
Millon, Tacoma, l. f.....	378
Mann, Seattle, c. f.....	374
Neighors, Tacoma, r. f.....	398
Whaling, Seattle, c.....	352
DeVoght, Spokane, c.....	379
James, Seattle, p.....	398
Noyes, Spokane, p.....	750
Clark, Vancouver, p.....	708
Wilson, Victoria, p.....	697
Gervais, Vancouver, p.....	535

Harry Meek leads the Northwestern league in hitting with an average of .34, but Hap Myers, the worry of all league catchers, is making things uncomfortable for the big Victorian, and is hitting at a .325 clip. Bartley, only a short time in the league, heads the list with an average of .464 for 12 games.

In the fielding records the Bees have one man in a first place for infield or outfield positions. That man is Brooks, the clean fielding first baseman of the locals. Smith is the leading Victoria pitcher with an average of 615, having won 8 and lost 5.

Venjamin H. Van Dyke, the Worcester baseball club's premier pitcher, has been sold to the Boston Red Sox for \$5,000. This is Van Dyke's third season with the Worcester club. He went there in 1910, and won twenty of the twenty-four games he pitched. Last year he won twenty-one of the thirty-three games he worked in, and to date he has won fourteen of his nineteen games.

Seattle is not far behind Spokane and Vancouver in climbing. Each team has won 80 games, but the Indians lead through their light loss column, which is one better than Seattle and three better than Vancouver. This week should see some developments in first place.

The Morning Albertian is not backward in expressing itself about the attendance at baseball games there. Here is what it says of a recent game: "Can you blame the baseball boys for putting up a punk exhibition of baseball when only twenty-five fans showed enough interest in the game to pay two-bits to see the game? Last night's game was a lousy one and was chucked

full of errors. It was not because the boys could not play better but rather because of the don't-give-a-damn attitude of the baseball public. Probably never in the history of organized baseball has a champion team drawn such small crowds as have the Bronchos this season. It's a disgrace to the city of Calgary."

Victoria's new pitcher, Gurger, was purchased from the Cleveland American league club, who had farmed him out to the Appalachian league. He reports to Victoria for spring training.

Next week the "Miniature World's Series" will begin. The Calgary team will battle with Hurley's Red Deers for the championship of the Western Canada league. Two games will be played in Red Deer and then two in Calgary. The team which first wins four games will be declared the champions.

## IRISH SOCCER GAMES.

Belfast, Sept. 9.—Following are the results of football games played Saturday in the Irish Senior League: Celtic 2, Cliftonville 1; Distillery 1, Glenavon 0; Linfield 1, Shelbourne 0; Bohemians 2, Trillick 1; Derry Castle 0, Glenavon 0.

## CON JONES' TWELVE WINS A CLOSE GAME

Score 4-3—Surprises in Eastern Lacrosse—Toronto Beaten

Vancouver, B. C., Sept. 7.—Westminster's long string of victories over the Vancouver club in the Minto cup series was broken by the Terminal City twelve Saturday afternoon, when the locals took the fifteenth game of the series by a score of 4 to 3. The locals won the game in the first quarter, when they rushed in all of their scores, while Westminster was held out. Neither team was able to tally in the

second, but Westminster added a couple in the third and another in the final period. They rallied toward the finish, but could not break through Vancouver's defense.

Heavy rain, which fell all morning and throughout the game, held down the attendance to 2,500 people, and made fast play practically impossible, as the field was covered with mud, but both teams put up a nice game. Play was clean all through, only two penalties being handed out by Referee Kavanagh. La Longe and Harvard clashed with each other in the first quarter, and were each benched for five minutes, but there was no more trouble during the entire game.

## Lineups.

Vancouver: Hess, Griffith, Cameron, Pickering, Ion, Godfrey, Matheson, McGregor, Allen, Phelan, McDougall and La Longe.

Westminster: Clark, T. Gifford, Howard, G. Renne, T. Renne, H. Gifford, McCarthy, Feeney, C. Spring, G. Spring, L. Turnbull and Hyland.

Goal summary: First quarter, La Longe, Allen, McDougall, La Longe; second quarter, none; third quarter, McCarthy, Hyland; fourth quarter, G. Spring. Penalties—First quarter, Howard and La Longe, five minutes.

## Eastern Results.

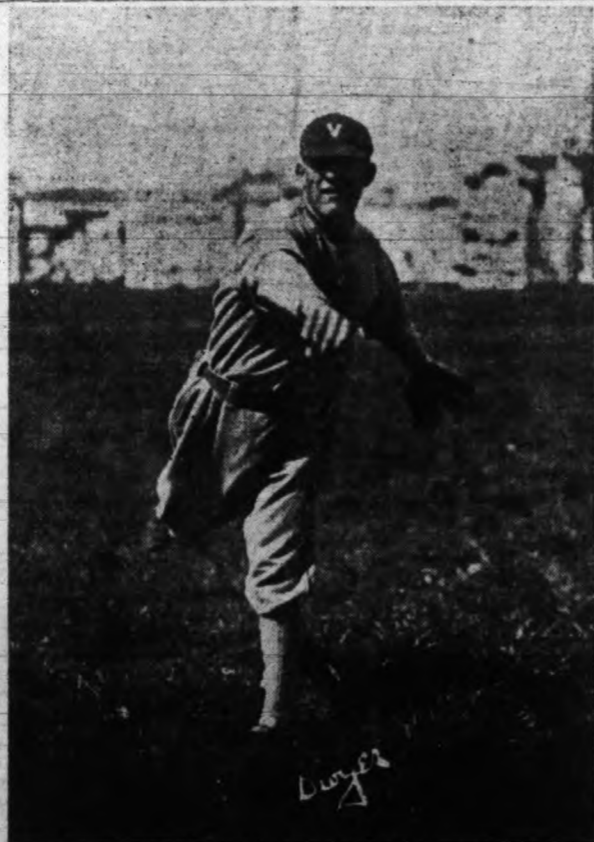

Toronto, Sept. 8.—Tucumshes turned a good trick here Saturday when they defeated the Nationals, 5 to 2, in the last scheduled "Big Four" game here this season.

Montreal, Sept. 8.—The Toronto "Big Four" league leaders met their Waterloo here Saturday when the Irish-Canadians trounced them in royal style. The final score was Irish-Canadians 10, Toronto 4.

## N. L. U. Games.

Montreal, Sept. 9.—The Capitals were just a light lunch for the Shamrocks here Saturday in their N. L. U. fixture, and the Irish horses just ran away with it. The final score was Shamrocks 12, Capitals 2.

Cornwall, Ont., Sept. 9.—Montreal fell before the factory town team here Saturday. Cornwall ran the score up and the final was Cornwall 14, Montreal 3.

FORMER BEE MCCREERY.

McCreery, familiarly known as "Mac" will be with Victoria no more. Joe Cohn, who seems never satisfied with increasing his pitching staff, has purchased him and will use him the rest of the season. McCreery was one of the first pitchers to sign a Victoria contract when the team was formed almost two years ago. In 1911 with a tail-end club, he showed good promise and was drafted by Cleveland, only to be returned without a trial to Victoria.

This season he pitched several good games, but did not come up to expectations. McCreery's best work in this league was done at the close of last season when he pitched an All-star team to victory twice in a post-season series over the Vancouver champs. This cuts the Victoria pitching staff down to Kaufmann, Smith, Wilson, Harmon and Kaufmann, the two latter having joined the club only recently.

## J. B. A. A. SWEEPS TRACK MEET

LOSE REGATTA EVENTS  
BY CLOSE FINISHES

Up-Islanders Do Great Work  
in Lapstreaks—Annual  
Event a Grand Success

Although losing several of the water events by close and exciting finishes the James Bay Athletic club track members made a clean sweep of the Athletic meet held in connection with the annual Shawanigan Lake Athletic Association's regatta at the popular summer resort on Saturday. All but one event of the lapstreak races was won in handsome style by the up-Islanders, the Bays taking the "O.O." challenge cup by a good margin, the winning crew being stroked by "Bill" Kennedy.

The weather was by no means ideal, but the rain held off for the most part of the afternoon and there was but a slight breeze blowing across the course. In point of excitement every race furnished a thrill, the success of the Shawanigan Lake crews being due alone to the handsome spurt each crew made in winning their respective races, which in each case was not more than from half to a full boat length. The most startling finish was made by the three young ladies of the lake club led by H. Koenig, who by barely half a length trimmed the three young ladies of the J. B. A. A. with Harry Skuce in the bow. Considering the short practice each crew had put in previous to the race, the young ladies of both deserve great credit, but the better race was undoubtedly rowed by the winners.

In the single scull pleasure boat race P. Barry, challenger to any sculler on Vancouver Island in this kind of a race, took the event handsily, but the performance of a rising young sculler in Gus Margelisch, who took second place is deserving of credit, considering that the lad had only rowed from an illness of some days. This boy had no difficulty whatever in taking the under 15 scull event. Mr. Barry has held the sculling championship of the lake for several years, and though getting along in years, has no peer in that locality.

Beasley Easy Winner.  
In the land events Hal Beasley, of course, had little difficulty in coming home winner in the hundred yards, and although given a good race by Gallier of his same club, did not extend himself whatever. Doney, of Cobble Hill, was a good third to the race and finished strong. While not at all posing as a star at the long jump, Beasley took this event with a jump of 18 feet 9 inches.

Gallier and Beasley divided honors in the meet, both taking two firsts and Gallier being second to Beasley in the hundred yards. Gallier gave a nice exhibition of jumping in the high jump and won easily over a teammate Houston. He also won the shot put, with Wood, a former Victorian, a good second. W. Gibb ran a fine race in the mile event for club members only, finishing in good condition and in good time, considering the condition of the course. Percy Beasley won the lead of a well run race, and the lead of Williams, who should have won the event, stumbled and lost a few yards on the last lap. Beasley gave a great spurt at the finish, which may have beaten Williams even had he not stumbled. The latter, however, led all the way and deserved to win.

The open relay was won with ten yards to spare by the James Bays, but Gallier, last man of the Bay team, lost the track in the darkness which had fallen and cut inside two stakes instead of passing around them. The race was protested by the Cobble Hill lads and while not decided at a late hour Saturday night by the judges, it will likely be given to the Cobble Hill lads. The event, however, belonged to the Bays by yards. This and the three-legged race are the only events the Bays entered in which they did not take first and second prizes.

There were over 100 tumbola prizes given away as well as the athletic prizes in the dance hall in the evening. A well conducted dance also took place and it was enjoyed by the large number present, the event being a fitting close to one of the most successful events the club has ever held.

The Officials.

The judges of the various events were as follows:  
Water Events—E. M. Walbank, Col. I. Eardley Wilmet, F. T. Elford, G. A. Cheek, J. L. Morris, V. K. Gray, W. R. Elford and H. Austin. Clerks of Course: H. E. Hawkins, G. Taggart, A. Wyde, J. McTavish.

Land Events.

Judges: D. Barry, H. E. Hawkins, A. Hunkin, Starters: P. Barry, F. C. Morris, W. Wilson, E. D. Carter.

## Dancing Committee.

Floor manager, E. M. Walbank; F. T. Elford, F. C. Morris, W. R. Elford, E. D. Carter, H. E. Hawkins, A. Cheek, E. W. Blake, G. Taggart, V. K. Gray, Col. I. Eardley Wilmet.

## Athletic Results.

Relay race, 8 L. A. A. vs. J. B. A. A. rowing crew—1st, J. B. A. A. Messrs. Day, Shiers, Nowitt and E. Ogden.

100 yards dash gentlemen, open—1st, H. Beasley, J. B. A. A.; 2nd, Gallier, J. B. A. A.; 3rd, H. Doney, Cobble Hill.

Putting the Shot—1st, Gallier, J. B. A. A., distance 32.10 1-2 in.; 2nd, Wood, Cobble Hill, 31.10 1-2 in.; 3rd, Houston, J. B. A. A., 30.2 1-2 in.

Three-Legged Race—1st, Doney and

## NICK WILLIAMS PICKS SEATTLE FOR WINNERS

Williams sticks to his idea that Seattle will be the team which lands the pennant. The Portland leader expressed this view two months ago, and nothing has occurred to change his views.

The Giants took the best part of the Tacoma club in the recent trade of Concanon and Chick for Hill and Melkie, and in addition they have the advantage of playing all but six of the remaining games on their own little collar box.

None of their games will be against the two leading clubs, but with the three second division teams, and with three of the best spitball pitchers in the league in Thompson, James and Fullerton, the advantage gained on playing on the small Seattle diamond cannot be underestimated.

Take the teams going to play there with curve ball pitchers, and they can lift their offerings over the fence almost at will. The difficulty in landing on a saliva artist's slants other than keeping them on the ground is small, and, according to Williams, the team ought to prove almost invincible on its home lot. He also predicts that if Melkie remains with the team next year he will also be traveling the slippery elm route.

Portland's chances against Spokane this week, Nick figures, will be up to the catchers on the Colt staff. The Indians have a great base-running aggregation, and if the local receivers can hold them in check, the Colts should be able to take the series if they can get a little bingleitis shot into their systems.

## SHOOT AS WELL AS HE TENDS SOCCER GOAL

E. H. Beane, the well known football goalkeeper, is also a good marksman with the rifle, and at the regular weekly shoot of the Victoria Rifle Association on Saturday won the gold button. The silver button competition was taken by W. Gibson and H. Sheldon. Williams was successful for the bronze button. W. Bailey won the Thompson cup for the highest aggregate, with 185 points for two days' shooting.

The following are the scores in detail:

Class A—	200	500	600	Ttl.
E. H. Beane.....	27	35	30	92
W. Bailey.....	29	31	30	90
Capt. Mitchell.....	28	30	32	90
Capt. McIntosh.....	30	31	29	90
Capt. Gollop.....	30	30	30	90
C. F. Hutchinson.....	27	31	32	90
Class B—	300	500	600	Ttl.
W. Gibson.....	31	30	34	95
J. Wicks.....	28	34	33	95
D. McNicol.....	29	23	25	77
W. Brayshaw.....	26	20	25	71
A. P. Gaiger.....	31	25	17	73
Class C—	200	500	600	Ttl.
G. Sheldon-Williams.....	27	23	5	55
E. Holmes.....	25	19	11	55

## SPORT NOTES

The V. A. C. lacrosse club have decided that they would like Messrs. LaLonde and George Tuck for referees in the coming Mann cup games.

The C. N. R. team is coming west in a private car furnished by Sir William Mackenzie. It is likely that a game will be played on September 19, and an effort will be made to have H. R. H. the Duke of Connaught face-off the ball.

The Northwestern Cycling and Athletic League postponed its meet last Saturday owing to the heavy rain. It will be held next Saturday.

The curtain has been rung down on the Minor meeting at Vancouver after a successful season.

Joe Lally is to arrive in New Westminster to-morrow from Cornwall. The point at issue in regard to Joe's trip is whether the second game of the Minto cup series will be played on September 25 or 28. It is also said that the Easterner may conclude arrangements on this trip to settle on the Pacific coast.

A meeting of the Old Country Rugby team will be held to-night in the Balmoral hotel at 8:30 o'clock sharp.

The classic turf event, the St. Leger, is to be held on Wednesday at Doncaster, England.

The Duke of Westminster has announced his willingness to spend \$500,000 to get together an English team capable of winning back the international polo cup, which was captured by the American team last year. He is already paying the highest price for polo ponies and is trying out players at his estate near Chester, England, every day, in the hope of picking a winning combination.

The Canadian Intercollegiate Rugby schedule which has just been issued is as follows:  
Oct. 5—McGill at Toronto, Queen's at Ottawa College.  
Oct. 12—Toronto at Ottawa College, Queen's at McGill.  
Oct. 19—Ottawa College at Queen's, Toronto at McGill.

Oct. 26—Queen's at Toronto, McGill at Ottawa College.  
Nov. 2—McGill at Queen's, Ottawa College at Toronto.  
Nov. 9—Toronto at Queen's, Ottawa College at McGill.

(See other sport on page 12.)

of Westmore, near Vancouver, Rev. Mr. Scott performing the ceremony. The bride wore a pretty dress of white voile with silk undersides, with the conventional bridal veil and orange blossoms. Mr. and Mrs. West are leaving on Monday for Los Angeles, Cal., where they will spend their honeymoon, on their return, making their home at Westmore.

Mr. and Mrs. T. H. Hayes have arrived from San Francisco, and are staying at the Empress hotel.

Mr. and Mrs. T. Tulloch have arrived in the city from Spokane, and are staying at the Prince George hotel.

Mr. and Mrs. C. Harris have arrived in the city from Calgary, and are staying at the Prince George hotel.

W. H. Lee has arrived in the city from Manchester, England, and is registered at the Empress hotel.

Mr. and Mrs. T. Wrench have arrived in the city from Vancouver, and are staying at the Dominion hotel.

Theresa, Countess of Shrewsbury, mother of the present Lord Shrewsbury, and of the Marchioness of Londonderry, who died recently at her London residence, was the great English beauty of 1867. Born in 1838, she was the eldest daughter of the late Commander R. H. Cockerell, R. N., and stepdaughter of the thirteenth Earl of Eglinton, who inaugurated and carried out the celebrated tournament which bore his name. As a girl she was very beautiful, and was accepted as the beauty of the Paris exhibition of 1867. To the last she retained many traces of her former charms. For over thirty years she worked among the poor of Lambeth, and was a frequent visitor to the workhouse and the infirmary. She invariably provided the wedding ring for inmates who wished to marry. She herself married the late Earl of Shrewsbury when she was 17.

Westerners recently registering their names at the office of the Canadian high commissioner, London, England, include the following: Dr. and Mrs. E. Aull and son, Mr. and Mrs. R. Clements; Vancouver; Mrs. A. Macdonald and Miss Macdonald, Winnipeg; Miss W. Lightfoot and Miss McKenzie, Saskatoon; Mr. J. C. Drinkie, Saskatchewan; Mr. and Mrs. G. S. Hutchings, Vancouver; Mr. and Mrs. G. W. Baker, Winnipeg; Miss Wyles, Victoria; Mr. and Mrs. E. H. Hutchings, Vancouver; Mr. A. C. Hasebaur, Calgary; Mr. and Mrs. H. T. Lockyer and Master Lockyer, Vancouver; Mr. and Mrs. H. R. Hollinshead, Winnipeg; Mr. Hugh A. Matter, Vancouver; Mrs. L. G. Harris and family, Winnipeg; Mr. J. O. Thorn, Vancouver; Mr. and Mrs. F. E. Weldon and Miss Weldon, Winnipeg; Mr. and Mrs. A. T. Cusling, Miss Ruth and Master Earl Cusling, Edmonton; Mr. and Mrs. J. Freeman and Miss H. Freeman, Victoria.

At St. George's church, Rossland, Thursday afternoon, Miss Margaret Spence Goodeve, daughter of A. S. Goodeve, Canadian railway commissioner, was married to Gerald Cecil Chubb, son of Charles Chubb, of Wallaceburg, Ont. The bride, who was given away by her father, looked very charming in a beautiful gown of cream satin with a real lace overdress. She wore a beautiful pearl and diamond pendant, the gift of the bridegroom, and carried a bouquet of white flowers.

She was attended by her sister, Miss Myra M. Goodeve, in a lovely imported gown of king-blue velvet. The best man was Harry T. Goodeve. The bridegroom's gift to the bride was a platinum and rhinestone pendant and a pearl tie pin to the best

man. Mrs. A. S. Goodeve, the mother of the bride, was charmingly groomed in pale grey corded silk, covered with grey silk marquisette. The ceremony was performed by the Rev. E. A. St. G. Smythe, of Tyall.

There were nearly 80 guests present at the wedding and the church was packed with spectators, the ushers being Messrs. Newton and Watson, who were presented by the bridegroom with watch fobs. The church was beautifully decorated with flowers by Charles Adams. Mr. Morgan presided at the organ. After the ceremony the guests assembled at the home of the bride's parents, where a sumptuous wedding breakfast was served. The bride and groom left on the Canadian Pacific Railway for Halcyon, where they intend to spend a couple of weeks before going to California.

an inordinate tendency to worry. He has never made any attempt to conquer it; consequently it has conquered him. There have been many years in this man's life when health, an unbroken family circle and material prosperity were his, and yet all the time he has been good fortune by worrying over some possible ill. Needless to say this attitude was a cloud that was continually shutting sunshine out of his own life and that of all those who lived with him. Surely that was needless trouble and unhappiness.

Again, I know another family in which there is health, comfortable financial conditions, an unbroken family circle and yet little happiness. The unnecessary trouble in this case is the husband's ungovernable temper. Life might be so very pleasant in this little family if it were not for that unnecessary trouble.

Somewhat it seems to me as if real, unavoidable trouble must surely come to these people who, in lieu of it, make unnecessary trouble for themselves.

For no one has any right to waste his powers of coping with and enduring unavoidable trouble in creating and suffering under unnecessary trouble; and when he does that, fate must surely be tempted to supply him with the real article.

Is there any unnecessary trouble in your household?

Are you the cause of it?

Ruth Cameron

There is a great deal of necessary trouble in this world.

No one who has been in it very long will deny that.

There is a great deal of inevitable unhappiness caused by sickness and death and money losses and other more or less unavoidable calamities.

But I believe that for every family where happiness has been lost on account of some inevitable trouble you will find one where happiness is being deliberately and unnecessarily thrown away.

I am thinking of a family where existence has been cramped and spoiled for the last twenty years—the very core of the life of two of its members—by the outrageous exactions of a nervous invalid. She is sick; she is to be pitied; she ought to be kindly cared for. But she has absolutely no right to have spoiled the happiness of that family as she has done by her domineering insistence of having her own way in everything. And they have no right to have let her. That woman is rotting with selfishness. She has needlessly hindered the happiness of at least two lives, and for my part, I am certain that out of it all she has not gotten for herself any more happiness than she would have by making her share of sacrifice. Indeed I suspect she has gotten very much less.

That's one case of unnecessary trouble. Here's another.

A neighbor of mine was born with

## WHITE MEN FOR THE FISHERIES

### GOVERNMENT SHOULD ASSIST IMMIGRATION

Sir George Doughty, M. P.,  
Thinks Industry Should Be  
Controlled by White Races

Sir George Doughty, M. P., "the King of Trawlers," returned to the city before leaving for England with Lady Doughty. He has been paying a visit of inspection to Alford Bay, Queen Charlotte Islands, where the fish plants of the B. C. Fisheries, Ltd. are established. To a Times man this morning he said that he was well satisfied with the progress made, considering the time the plants had been established there. Extensions would be carried out as opportunity offered, and probably a plant would be established on the mainland.

He had not considered the question of the whaling industry on the West Coast of Vancouver Island, with a view to entering into that class of trade as yet, but did not think that the two plants on the Queen Charlotte group, and the two on the West Coast of Vancouver Island exhausted the possibilities of whaling off British Columbia coasts. However, whaling was an industry which required a good deal of thought and care and demanded experienced men to operate the plants.

"The labor situation," Sir George said, "is an important one in the development of the fisheries of British Columbia. I am one of those who believe in white labor, and think that the fisheries should be carried on by white men. We have, of course, a number of Indians employed, like other canneries, but what I should like to see is the strengthening of the white fishing population by sturdy men from the North Sea who are accustomed to this class of work. A few of them have already been introduced to the industry in these waters, and more will be arriving shortly on the trawlers I have en route from England. They will join the trade, and I am sure will exercise a beneficial effect on the industry in this province."

"I think the provincial government should devise some method of assisting these immigrants to settle here. They make capital investments, and would be a credit to British Columbia, but the expense is the barrier to emigration with families. Some assistance should be given them in the passage, and probably help when they get here. "I am sure there are a great many of these fishermen who would be glad to emigrate if they had the encouragement and means to do so. The fisheries of the province ought to be freed from the Japanese—there is no reason why this should not be done—and I am hoping while in Victoria to discuss this subject with Sir Richard McBride, who, I know, is kindly disposed towards some scheme for retaining the fisheries with our own people. But, however, it is not for private undertakings to deal with this question alone, nor can commercial enterprise be shackled by regulations about white labor unless opportunities are given to supply that class of labor to this country, through

government assistance. I am hopeful some scheme will be devised along the lines I have mentioned, in which we are trying to do our share.

The Times man drew Sir George's attention to the visit of Dr. Grenfell here recently on a similar mission, namely, to take Labrador fishermen from the inhospitable shores of the fog-bound coast, where their work lies, to the Pacific seas, and Sir George said he thoroughly agreed with Dr. Grenfell's public spirit, and the desirability of these people as settlers here.

Sir George and Lady Doughty will return to England through the United States.

### HINDUS PROTEST.

Pass Resolutions in Mass Meeting—  
Yesterday—Legal Action  
Against Mayor.

A mass meeting of the Hindus of Victoria was held in the Sikh meeting house, Herald street, yesterday. The following resolutions were passed unanimously:

"1. Resolved, that as J. L. Beckwith, mayor of the city of Victoria, gave an interview to an Eastern paper, alleging certain irregularities regarding the character of the Hindu people in Victoria, and as many of these people are his Majesty's loyal retired Sikh soldiers of the Indian army, the necessary legal proceedings be at once taken to have these statements refuted.

"2. Resolved, that as the four minor children of Hukam Singh, a late trooper in the service of his Majesty, who are now en route to British Columbia for the purpose of receiving instruction and education, have been detained at Hongkong for the past year, notwithstanding that innumerable petitions and telegrams have been forwarded to the premier of Canada and the honorable Mr. Rogers on behalf of these children, reminding them of the pledge given by the Dominion government to the Hindu deputation which waited on the premier and Mr. Rogers at Ottawa last winter, by which it was promised that the Hindus should have free entrance to Canada, and that as the transportation companies refuse to issue any tickets for the passage of these children to British Columbia, legal steps be taken at once to secure the necessary enforcement of the law in this respect.

"3. Resolved, that the meeting condemn the action of the Sikh leaders in refusing to submit to the preposterous restrictions proposed by W. D. Scott, superintendent of Immigration at Vancouver, to the effect that Hukam Singh's children would be allowed to enter Canada, provided the Hindus undertook to bring no more families from India to Canada."

### CHARLIE BROWN WON TEN-MILE RACE SATURDAY

Charlie Brown, running under the colors of the Victoria West Athletic club, finished first in the 10-mile long distance race on Saturday at Oak Bay Park. B. Bowser was second and Bown was third. The final twenty-one laps of the race were run on the Oak Bay track, while the start was made at the corner of Broad and Yates streets. Despite the rain it was one of the best long distance races held in this city in several years. The race was run in connection with the Northwest meet which was to have been held on Saturday.

Meeting of Order of Owls.—The regular meeting of the Order of Owls will be held at the A. O. F. hall, Broad street this evening, at 8 o'clock sharp and all members are requested to attend.

## MANY LAWYERS AND CLIENTS IN COURT

### LIST CROWDED WITH VACATION BUSINESS

One Plaintiff Disappears and  
Another Writes That Case  
Will Sure Go Against Him

With a list before him of more cases than could be possibly heard by one judge in one month, Judge Lampman opened the September county court this morning, sitting in the assize court room, because of the unfinished repairs in his own court. In all there were about eighty trials listed which would have to be heard at the rate of more than four cases per day to clear the list up inside the month.

With the setting over at the request of lawyers of a number of cases on the list until the October court the trials for this month were lessened in number, and the month's business was made more practicable by the announcement of some that their cases had been settled.

With the court room filled with lawyers and others who were interested the morning was the busiest that has been seen in county court this year. The legal gentlemen arranged dates between them to take either the first or the second list, the first being between now and September 18. Commencing this afternoon the court will be busy every day till the end of the month.

In the case of Murray against Heath, J. A. Alkman for the plaintiff, disposed of the matter by announcing that he believed his client had disappeared, and as there was no chance of going on this month the trial was set till October. J. P. Walls and Sidney Child appeared for clients in the same case at Salt Spring Island. Mr. Walls wanted the case set over for some days, but Mr. Child urged for immediate action. Mr. Walls replied that there would be some doubt about one of the litigants being brought from Salt Spring Island. "He's the plaintiff," said Mr. Child, "I'm looking after him." What seemed a mystery was dispelled by the announcement by Mr. Walls that his client also resided at Salt Spring Island. Judge Lampman settled the date and all doubt about the appearance of the parties by setting the case for trial during fair week. "They will probably both be here then," he remarked.

Another litigant wrote the registrar that he did not think the case was worth while employing legal advice as he felt it would be sure to go against him. The final disposition of the case will be made to-morrow morning.

### LOCAL NEWS

Brigadier Dublin to Visit.—Although Salvation Army members were disappointed in not having Col. Mapp here yesterday on his farewell tour of the Dominion, a visit will be paid next Sunday by Brigadier Dublin, of Seattle, who has charge of a considerable section of the Pacific Northwest in the interests of the Army.

Oak Bay Building.—Two permits for building were taken out this morning at the Oak Bay municipal office by R. R. Jones for two houses on Victoria avenue, at a total cost of \$8,500. One house will contain seven rooms and the other eight, and will be designed and built by Mr. Jones.

Cowichan Lake Extension.—According to H. E. Beasley, the general superintendent of the E. & N. railway the Cowichan Lake branch line will not be open for passenger traffic for some time to come as the right-of-way has not yet been cleared of the timber encumbering it. However, good progress is being made with this, and quite a large amount of freight traffic is already being handled by the railway.

Y. M. C. A. Sport.—The cricket club of the Y. M. C. A. which has had a most successful season, is arranging for a social to take place on Friday, September 20. The football club, with admirable keenness and energy, has already started on its way, and a tentative match was played on Saturday at Beacon Hill in a pouring rain. However, the players stuck to it manfully and a team, with Captain Stott in command, won by two goals to nil. Judging by Saturday's exhibition, the association has plenty of good material to draw upon for a really excellent soccer team.

The Weather.—As the prairies are concerned the heavy rainfall for the year is practically over. Unfortunately, with the going of the rain, and the coming of the fine weather, the frosts are likely to set in, and meteorological conditions, as recorded by wire at the local weather bureau from the prairies, all point to that state of affairs. The condition of affairs throughout this province was very encouraging. No rain had been recorded except in the Far North, and the barometer was high over the whole Pacific slope. Intense heat is again being experienced all along the Mississippi valley, and especially at Chicago, where the minimum temperature recorded before sunrise this morning was 74 degrees in the shade.

Yesterday's Shoot.—In the combined shoot of the Victoria and Capital Gun Clubs, held on Sunday, the local team lost first place to Vancouver. The locals took second place. In the individual shooting, C. Mink, profes-

sional, took first with a total of 140, while J. Forbes and H. Rickelsson, also professionals, finished with scores of 132 and 137 respectively. J. Sylvester made the next best shot to Mink and took second place in the individual score. The weather was perfect and over 60 members took part, as well as others from Seattle and Vancouver.

Friendly Help Association.—The Friendly Help Association will meet to-morrow morning at 11 o'clock, in rooms, Market hall.

## COURT SITS AT ST. JOSEPH'S HOSPITAL

### LOUIS FELICE TELLS STORY OF SHOOTING

Charge Against Spaulding for  
Alleged Crime August 23  
Adjourned to Police Court

With a hospital cot as a witness stand, and the court officials grouped around his bed in St. Joseph's hospital this afternoon, Louis Felice, who was shot in Beacon Hill park on the evening of August 23, lay with his head propped up with pillows, and told Magistrate Jay this afternoon of the facts of the shooting. Court was adjourned from the city hall to the hospital because of Felice's inability to be brought from the hospital, and for the purpose of having the case proceeded.

George W. Spaulding, the accused, who is charged with shooting with intent to kill, was in custody of a police constable by the bedside, and heard the evidence of the man whom he is alleged to have tried to kill. When the evidence had been taken down by the court stenographer the court adjourned, and will resume, taking evidence in the case at the police court.

Felice told how, on the night when shot, he had gone from the boarding house in Superior street, where he and the accused and his wife resided, for a walk in the park with accused's wife and Mrs. Siciliano, who also boards at the Superior street house.

When entering the park Mrs. Siciliano left the couple, who proceeded into the park near Goodacre lake, and were sitting on a seat conversing when Spaulding came across the grass to them with a revolver.

Believing that trouble would follow instantly Felice says he made a rush at Spaulding, and tried to grasp the revolver. In the struggle shots were fired, which entered his body.

Felice is making a good recovery, and has now passed out of danger of death from his wounds. The physicians at the hospital, expect that he will be out of their care before very long.

### WEATHER BULLETIN.

Daily Report Furnished by the Victoria  
Meteorological Department.

Victoria, Sept. 8-5 a.m.—The barometer is now high over this province, and fine weather is general, with moderate winds along the Coast. The weather is also fine in the prairie provinces, and rain has fallen in Alberta and Western Saskatchewan.

ADVERTISE IN THE DAILY TIMES

If It Costs More to Live,  
It Costs More to Overlook  
The Advertisements!

When things cost more, opportunities to  
buy economically are worth more.

No housewife in this city, who feels and knows the slightest hardship on account of high prices, can afford to remain blind to the daily opportunities for saving offered to her by the advertising merchants. These alive merchants are often able, through effecting quick and large sales of an article, to cut the selling price to very nearly the cost price.

The housewives should see that when they do this the volume of quick sales will always repay them.

Watch the ads.

## STOMACH SOUR? GOT INDIGESTION ALSO

"Pape's Diapepsin" Makes Up-  
set Stomachs Feel Fine in  
Five Minutes

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Pape's Diapepsin costs only fifty cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these fifty-cent cases, then you will understand why dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapepsin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh; and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many Diapepsin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too. If you ever try a little for indigestion or gastritis or any other stomach misery, get some now, this minute, and forever rid yourself of stomach trouble and indigestion.

## BRITISH MEMBER COMES TO STUDY

### MATTERS AFFECTING BRITISH EMIGRANTS

Ernest Craig, M. P. for Crewe  
Impressed With Western  
Development

"My chief intention in coming to Canada," said Ernest Craig, Conservative M. P. for Crewe in the Imperial Parliament, yesterday, "is to study the conditions for emigrants, for their reception, and the nature of the employment it is possible for them to obtain. In my constituency, of late, we have had many emigrants to the Dominion, and as quite a number of those still at home are often asking me as to the advisability of veering westward, it is in order to give them knowledge first hand that I have undertaken this hurried trip."

"Also, I must admit," continued the member for Crewe, "that I have come to see what we have been hearing about, reading about, and talking about for the last few months in the Old Country, the place which seems to have become in a moment the cynosure of all eyes—and that is the Western part of Canada."

"Of course, it is a pleasure trip for me, and one of the finest I have undertaken. I stopped over at the larger towns en route such as Calgary, Moose Jaw, Regina and Lethbridge. I am very much interested in the mining operations in this country, as I have always been in geological conditions in the States and in England. I hear that you have quite a lot of valuable mines on the island here."

"What struck me as the most wonderful thing in coming over was the way in which new towns were finished off as they go up. In a new country one expects to see fresh town-sites which spring up, possessing mud streets and faulty artificial lighting. The reverse was the case, to my observation. By the way, you have wonderful lighting effects in Victoria. I never remember seeing a place which struck me so in that respect before. It is not many months ago since Ernest Craig won the by-election for the Crewe division after being defeated in the same constituency almost two years ago. His majority on that occasion was 956 votes, which was a turnover of 2,000 from the last election. He fought the contest on the platform of tariff reform and colonial preference."

The German Question.  
When asked as to his views on the German question Mr. Craig said that he thought a great deal of the anti-German noise which was being made in the Old Country was absolutely unnecessary. Educated in Switzerland, the member for Crewe has also spent much time in the Fatherland, and knows the people well. He is a great admirer of them; of their sturdy character, their (apparently) phlegmatic temperament, and great business capabilities. He knew, he said, that there was little kindly feeling between the Germans and the English, but was under the impression that the "scare" was slightly overdone.

Panama Canal Bill.  
On the subject of the Hay-Pauncefote treaty, and the signing of the Panama Canal Bill by President Taft, Mr. Craig said:

"Knowing the States as I do, I feel satisfied in my own mind that they know what their rights are in the matter, and the history of the United States shows that as a nation they do not step beyond their moral rights as a rule. Although Mr. Taft has signed the bill I believe that if they are not entitled to it, the American people will not claim anything beyond their just rights."

Already, the press of America, which is often indeed the very voice of the people, has spoken in no uncertain way on the matter, and I believe that in time all will be well." Mr. Craig also added that he thought that the signing of the bill might prejudice a certain section of the electors against the President in the forthcoming presidential contest.

Harking back to English politics, the member for Crewe pointed out that the Liberal party had set a hornet's nest about their ears by attempting to force three important and far-reaching measures in one session. He referred to Home Rule, Welsh Church Disestablishment, and the Franchise Bill. The first seemed to be received by the country on every hand with decided disapproval, the second with absolute disgust, and the last with indifference. If there were a general election to-morrow," said Mr. Craig, "the Liberals would be defeated hip and thigh, and the Unionists would go into power with a huge majority."

Though sitting on the opposite side of the House, Mr. Craig has conceived a great admiration for the present First Lord of the Admiralty, whom he thinks a very capable, hard-working and brilliant man. Bonar Law he describes as a politician "with the practical gift of being able to say what he wants to say clearly and tersely, and in a manner that even a child could understand." His speech at the Albert Hall just after Mr. Balfour had retired from his position as head of the Unionist party was one of the most convincing and crystal-clear addresses that he (Mr. Craig) had ever listened to.

on the face of the earth. Mr. Craig came over on the Mauretania with the Right Hon. Walter Long, F. E. Smith and other Unionist members. The Duke of Sutherland was also on the same boat, and the voyage had been most pleasant.

Mr. Craig confessed that this was by no means his first visit to the American continent, but that he had worked in the States for many years. "I was apprenticed as a mining engineer in my early days," he said, "and I came to the States to work just thirty years ago. You may imagine that I did not find a miner's job waiting ready for me when I got there. I had to set to with pick and spade, and for a good many years my life was a particularly hard one."

"That is one thing that I am going to impress upon my constituents," he continued, "I want them to understand that in coming out to a new country such as Canada, they must be prepared to work with axe and saw and pick until, in the fullness of time, they drop into the niche that was intended by Nature they should fit. They will have to realize that a new country requires men of activity and energy and courage; men who will take things as they find them, and not judge the country and the people by their previously acquired standards. They must learn to get at rock bottom before seeking to climb, for that," he finished, "is what develops the finest kind of character."

## SYDNEY'S WELCOME TO CANADIAN CADETS

Elaborate Preparations Were  
Made for Entertainment  
of Visitors

(Mail Correspondence.)

Sydney, N. S. W., Aug. 7.—The Canadian cadets were received with open arms by the people of Suva, and were the guests of the Fiji cadets to a drive in the early morning, and later to a breakfast at the leading hotel, where natives were the waiters in native costume of a short skirt and coat. They all have black bushy pompadour hair and look very ferocious, but are just the opposite.

Native huts of straw and natives in their natural surroundings were seen by the boys on the drive. At the wharf natives were selling coconuts and coconuts while small boys dived for pennies from native canoes, which are dug out of a large tree.

At Auckland, New Zealand, the Canadians were the guests of the Canadian commissioners, Mr. Beddoe, who at his own expense had made arrangements, and took the boys for a sight-seeing tour of the city, which was enjoyed very much by the boys.

Upon reaching Sydney the youthful soldiers were received by the New South Wales Sports Club, who are their hosts while in the city. After the usual welcoming speeches the cadets were billeted with the people who entertained them in Sydney. Sight-seeing trips for every day were arranged. A programme for the cadets' stay in Sydney follows:

Sunday, August 5.—Arrive by S. S. Zealandia. March to Sports Club, Hunter street, and distributed to homes.

Monday, August 6.—Special train Loop St. James' church to La Perouse at 2 p. m. Evening, theatre.

Tuesday, August 7.—Reception by the Lord Mayor at town hall at 12 o'clock. Noon. Afternoon, 2 o'clock, special train from Loop street, James' church to Watson's Bay. Evening, theatre.

Wednesday, August 8.—Special train St. James, at 12.45 p. m. to Australian football ground. Football match, 1.30 p. m. Australians won. Evening, military display at sports ground.

Thursday, August 9.—Motor trip and luncheon by Major Arnott. Evening, concert Concordia hall.

Friday, August 10.—Train at Central station 8.27 a. m. to Katoomba. Return from Katoomba 4.45 p. m.

Saturday, August 11.—Special train at St. James loop at 12.45 p. m. to Australian football ground. Football match at 1.30 p. m. Evening, J. D. Williams moving pictures of Canadian cadets by invitation.

Sunday, August 12.—Church parade, special train railway loop 10 a. m. to Hunter Bayley church, Johnstone street, Arundale.

Monday, August 13.—To Newcastle, train at Central railway station at 7 a. m., and return by boat 11.30 p. m.

Tuesday, August 14.—To Goulburn, train at Central railway station at 9.45 a. m.

Trips to Watson Bay, La Perouse and Katoomba, by courtesy of New South Wales government.

CORP. W. E. McTAGGART.

## PASSING SHOW

Majestic Theatre.

"A Nation's Peril" is an extra special feature of two reels which will be the big headlines at the Majestic to-day and to-morrow. The intrigues of diplomatic service contain the nucleus of many a good story, and "A Nation's Peril" is one of them. As the title would indicate, the picture illustrates, to the average citizen, how at all times there are representatives of foreign powers spying upon the defences of other countries, including our own. It points out the reasons why army discipline must be as strict as it is. One of the favorite tactics of some of the European courts has been to employ women as spies, and to utilize their enchantments and social connections as a means of obtaining information. In "A Nation's Peril" we see the explosion of the submarine mine, throwing thousands of tons of water into a column ninety feet high and carrying aloft the shattered fragments; there is also the battleship's tender bearing the spies. This alone makes the picture the most sensational film ever thrown on a screen. Other films are "The Gaiety"

Girl's Love Story," "The Will of Destiny" and "The Honey-mooners." The Empress Theatre.

The Ragtime Trio, comprising Billy Green, Henry McHenry and Homer Deane, one of whom is seated at a piano while the others occupy points nearer the footlights, sing many rollicking melodies in a good singing act which heads the bill at the Empress theatre this week. They came to the Sullivan & Conside circuit after a long engagement at the Hammerstein theatre in New York, where they were quite successful.

In "The Two Flats," Charles Ward and Katherine Klare have a brilliant comedy sketch which brings laugh after laugh. It deals with the efforts of a bill collector who becomes badly mixed when seeking his victims in the wrong flat. Miss Sherwood assists in the production and she and Miss Klare sing good numbers during the action of the piece.

A musical act of the best of its kind is that offered by Jura Reed and St. John. They entitle their contribution "Colonial Pastimes" and dress and stage the act after the manner of the colonial period to good advantage. Piano, cello and violin numbers are included in this prettily staged act.

Ida Russell and Grace Church, two young women of excellent stage appearance, who bring a fine array of gowns to please the feminine portion of the audience this week, have a good singing and dancing act which they bill as "From Society to the Bowery."

Two athletic young men, Chapman and Berube, offer acrobatic, hand balancing and gymnastic work in their part of the show. They include some clever feats of hand to hand balancing. Both are finely-proportioned young men, and display much ability in their work.

One of the most remarkable hotels in the world, in some respects, is the Essener Hof, where foreign envoys and officials from all parts of the world visiting Krupp's factory are entertained by the firm free of all charge.

## A BEAUTIFUL PLAYER-PIANO

FOR

\$1.00

A beautiful English made Player-Piano together with a number of rolls of music, the property of

# HIGHLANDS

"WITH A GLORIOUS VIEW"

## Here's What You've Been Looking For

### Magnificent View Lots Sweeping a Panorama of Countryside Straits and Mountains for \$850 and Up, On Choice of Very Easy Terms

The splendid property constituting "Highlands" is offered to the public at a time when good lots in this district at an easy price and on easy terms are at a premium. "Highlands," as its name implies, is situated on the beautiful slope that runs down to the sea above Cadboro Bay. Below it the scene takes in the "Uplands" property, the new Cadboro Bay Hotel, the Bay itself, the Gulf of Georgia beyond and the Olympic Mountains in the distance. Every lot in the property is an A1 homesite, ready to put a house on now.

General View of Sea and Intervening Property From Sinclair Road

## Facts That Make It Worth While Knowing About "Highlands"

Same magnificent view as "Uplands" and other expensive properties.  
Divided by four full width streets  
Every lot at least a quarter acre.  
Located just off Cadboro Bay Road, where new car line is building.  
Splendid garden soil of deep, rich, black loam.

Cleared of all save fine oak shade trees.  
Absolutely free from rock and ready to build upon.  
High and dry, free from fog and damp.  
Fresh, pure air protection from epidemic.  
Commands whole panorama of countryside, with view from every lot owing to gentle slope towards water.

Looks out across "Uplands" (Victoria's high class improved subdivision, even more exclusive and prettier than "Shaughnessy Heights," Vancouver).

Costs less than any property in this high class district  
Sells at sight on our easy terms.

## HIGH PRESSURE SYSTEM IN REVIEW

Chief Davis Speaks on Subject  
Before Pacific Coast Fire  
Chiefs' Convention

Fire Chief Davis occupied the chair at the opening session of the annual convention of the Pacific Coast Fire Chiefs at Los Angeles today, the delegates receiving a civic welcome.

Speaking on the subject of high pressure systems, in which he has had considerable experience in Victoria, since the installation of that system, the chief said in part: "After a suitable appropriation for the installation of a high pressure system has been made the most important of the initial steps towards placing in service this system, is the engagement of a thorough and efficient engineer to take charge of the work. The engineer, needless to say, should be fully conversant with every detail of his profession, and furthermore, he should possess a little knowledge of fire department requirements. It can be stated almost axiomatically that a good engineer means a well installed system, for a mistake made in an untried device may result in serious loss of life or property. On the other hand, of course, no hindrance should be placed in the way of proved advances in construction or operation.

"For a city, say of sixty to one hundred thousand population, and where there is no waterfront of any importance to contend with, the system, in my opinion, is the double unit pumping system, with two separate suction pipes, so as to guard against the remote possibility of the plant being out of order at any time when required, and to have it so arranged that it can either be operated with electricity, gas, crude oil or coal. The electric driven pump is far quicker acting than either the steam or the steam-driven turbine, as in the last case you have at all times to watch your vacuum.

"It is needless for me to go into the construction of the pumps, as each municipality has its own ideas of what they should be to meet requirements. However, I will try and endeavor to give you a synopsis of the salt water high pressure system we have in operation in the city of Victoria, B. C., which the writer has the honor to represent."

The chief then described at length the system in operation here.

"The question of supplying high pressure mains laid through the streets, by means of fire boats, is an open one," he said in conclusion. "Something can be said on both sides in favor and against such a system, if a fire boat is not needed for other work, for probably in many small cities where there is a large waterfront and where a boat is necessary, the department may use it for many things besides fire department work. It could be used for forcing water through the mains to fires at points distant from the berth. The only way to build a proper and efficient fire high pressure system, and at the same time protect a waterfront, is to build a permanent pumping station on the waterfront. The boat could then be used in an emergency by having the pipe laid to her berth, in case the pumping station was out of commission, but to depend on the boat entirely is not good policy. I consider that all cities of 50,000 or less, where the water

pressure is inadequate for fire purposes, are not complete without this important branch of the service.

## MARKSMEN OF FIFTH MADE SOME GOOD SCORES

There was a decided change from the usual blustery weather experienced by the marksmen of the Fifth Regiment Rifle Association at Clover Point on Saturday afternoon. At 200 yards a dull, even light prevailed, with little or no wind, and some very good scores were compiled. During the firing at 500 yards a light drizzling rain began falling, gradually increasing until it became almost a downpour at 600 yards. The wind freshened slightly, making it very difficult to judge, and several promising scores were shattered at this range.

The principal scores were:

Class A.	200	500	600	Tl.
Sergeant de Carteret	32	29	31	92
C. Q. M. S. Hatcher	31	32	28	91
C. S. M. Caven	32	33	26	91

Pollard's Juvenile Co.

Those very clever and entertaining young Australians, known as the Pollard's Juvenile Opera Company, are once more back in Canada after an extensive tour of Australia and New Zealand, with all the vitality which travel and success give. They will renew their acquaintance with the Victoria public, with whom the juveniles became favorites some years ago. The young people, with all their humor and good voices, will be heard at the Victoria theatre, where they will begin an engagement commencing Monday, September 9, with the musical comedy success, "Sergeant Brue," presented for the first time in this city.

## RUN DOWN BY TRAIN.

Seven Persons Injured When Automobile is Wrecked.

Berkeley, Cal., Sept. 9.—One person was probably fatally and six others seriously injured near here when the automobile of F. H. Lewis of Honolulu was struck by a Key Route train yesterday. Miss Nellie Barracough, Honolulu, received a fractured skull and probably will die.

The members of the party were returning from a ride, in which Lewis was testing a new seven-passenger touring car. None of the party observed the approach of the eastbound train. The automobile was hurled thirty feet.

## SIR THOS. SHAHNESSY ON NEW STOCK ISSUE

(Continued from page 1.)

the only persons who have the intimate knowledge required to determine what the price should be, and this duty is assigned to them by their fellow proprietors. Unless they be reckless or lacking in integrity they will exercise their best judgment, looking to the future welfare of the company, and if there be subsequent business stagnation or any other causes for disappointment to the shareholders, the directors will be free from blame.

"If, however, the government were to assume this duty of the directors and were arbitrarily to fix the premium at which the shares should be offered to the proprietors or the public, the position and responsibility of the government would be essentially different from that of the board of directors. The order in council fixing the premium would, I think, be generally accepted as an undertaking on the part of the government that the market price of the shares would never fall below the figure named. Indeed I do not see how the government could justify such action without coupling with it a direct undertaking to that effect. You will see at once that our Canadian government would be in an undesirable position if an order-in-council were passed to issue the shares of the company at, say, 150, and if, in the course of time, and by a combination of circumstances that nobody could have foreseen or controlled, the market value of the security was reduced to a figure that represents a loss to the shareholders.

## Government and Issue.

"Manifestly, while it is probably quite competent for the government to refuse point blank its approval of a proposed increase in a railway's capital stock, and thus, in all likelihood, force restriction of expenditure, with consequent public loss and inconvenience, there are in my opinion conceivable grounds upon which that same government could fix an issue price in excess of the par value of the security.

"When people purchase our common stock they have in mind an investment that will give them a reliable return in the future. The investor takes into account the effect that the issue price has on the average value of his entire holdings. For instance, if a shareholder has 100 shares, of which the market price is 270, and he subscribes for 30 additional shares at 175, the average price is 270, and he subscribes for 30 additional shares at 175, the average price of his entire holding is reduced to 243. If the issue price be 200, the average price will be 254. In other words, if, after he gets his new stock the market breaks 16 points, or in the other case 22 points, the advantage in price has been wiped out, and we know how frequently a financial disturbance in Europe or elsewhere that has not the most remote connection with Canada or Canadian affairs will cause a break of 16 or even 22 points in a high priced security like the Canadian Pacific. These are the considerations that we weigh with the people upon whom we rely for our vast money requirements, and any company of the magnitude of the Canadian Pacific must, if it is to expand and progress, have an army of those who are prepared to follow its fortunes and invest in its securities. No, if we were to appear with the financial propositions outlined by our good friends who mean well but do not know, they would button up their pockets and tell us to go hang for our money."

With regard to the suggestion recently made that a reduction in rates might be made a condition of the government's approval, Sir Thomas said: "The subject of rates is one that must be considered by itself, and in Canada we have a capable commission clothed with plenary powers, who are now conducting a comprehensive enquiry."

## IDEAS OF A PLAIN MAN

BY DR. FRANK CRANE

Did it ever occur to you that perhaps the person you call a hypocrite is simply a more complex, a more highly organized person than yourself; and that the one you call "good" and "an honest, sincere soul," is sometimes merely narrow?

It's worth thinking over. There are some large natures which cannot be satisfied with less than touching life at all points. They crave experience, all kinds of experience.

This of course is dangerous. Anything is dangerous except going to sleep. But it is becoming more and more a characteristic of our modern life.

And in some way or other we have to get some ideas of morals and religion that will fit this wider and more adventurous spirit. It will not do any longer to say, "If you want to be good and go to heaven you must not see these things nor hear these, read this book nor know this fact."

Limitation, ignorance and protection have their place in the economy of life, but they are a poor substitute for character. Before you dub a man a hypocrite find out the real gist of his life, whether he be loyal, clean and true, and not whether his manners and tastes are the same as yours and Mrs. Grundy's. It is conceivable that a man may worship God and yet enjoy a theatre.

# Don't Let Another Week Pass Without Seeing It--It's Sixty Per Cent. Sold and Only a Week Old---Victoria's Last Close In Subdivision

# JUBILEE ANNEX

Think what it means to sell sixty per cent of a subdivision property within the first week of marketing! Consider the large number of residential properties on the local market, all bidding for preference. What does it mean, other than that "Jubilee Annex" is considered the best buying by more than a majority of those who have been looking for homesite lots? Does this entitle the splendid property to YOUR consideration?

"JUBILEE ANNEX" will have been sold out by this time next week. Those who buy will get bargains that can never be obtained again in Victoria. After this week it will be too late.

# LOOK HERE!

"JUBILEE ANNEX" IS RIGHT IN TOWN, INSIDE THE CITY LIMITS. THE LOTS ARE ALL AMPLE IN SIZE, 50x118 TO 50x180. CLEAR, EXCEPT FOR BEARING FRUIT TREES, ROCKLESS and deep with rich, black soil. They front on full width streets and the property lies on an important corner, where Richmond Avenue is intersected by Haultain Street, the latter only one street north of Fort street. The Mount Tolmie car line runs past the property on Richmond Avenue, the avenue on which the new University School and Normal School will be built.

STREET CARS (THE WILLOWS LINE JUST A BLOCK AWAY). CITY WATER, ELECTRIC LIGHT, SEWERS, SURROUNDING DISTRICT ALL BUILT UP WITH CHARMING HOMES. YOU CAN'T BEAT "JUBILEE ANNEX."

The Prices Obtaining Now and Easy Terms Are:

# \$1,100 to \$1,400 Per Lot

One-Fifth Cash, Balance 1, 2 and 3 Years

BETTER MAKE IT A POINT TO SEE THE PROPERTY TO-MORROW. OUR MOTORS RUN REGULARLY AND COST YOU NOTHING, OR A WILLOWS CAR TO RICHMOND AVENUE WILL HAVE YOU THERE IN A FEW MINUTES. DON'T PUT IT OFF. SEE THE LOTS AND ACT.

### WATERWORKS ENGINEER.

To the Editor: Respecting the above proposition by Mr. Cuthbert, would it not be better policy, and far more courteous to the present water commissioner, Mr. James Raymur, after twenty-five years of yeoman service, not to change horses crossing the stream. The resignation of Mr. Raymur in the midst of the Sooke business might put the citizens to considerable more expense than they at present realize. Nominally, and presumably legally, the city engineer, Mr. Rust, is already waterworks engineer, with full powers to exercise his authority.

Seeing that Mr. Rust has publicly stated that his services as engineer are always available I fail to see that any drastic change is advisable and it is probably far preferable for these gentlemen to arrive at a definite understanding under existing circumstances and work harmoniously together and as by the extension of time, Mr. Raymur retires and Sooke arrangements terminate, Mr. Rust will come into full control with the exception of certain matters better left in the hands of Mr. Raymur.

ADJUSTABLE

### TEACHERS AND PUPILS.

To the Editor: In the Times of September 6 a critic of school discipline splits his breast with all the old-time civic dignity of Brutus, and calls himself "Citizen," then treats us to the following oration: "It was reported this evening that a teacher at the Boys' Central school, after thrashing a boy for misconduct, jerked him around until he dislocated his arm." Of course, we know what citizen meant to say, although he does not make it quite clear whether it was the teacher who dislocated his own arm or that of the boy during the jerking about which had unfortunately happened. Now, a well-known judge has laid it down that "evidence is not always proof," yet upon the strength of this report which Citizen heard he turns up the whites of his eyes in righteous indignation and figuratively screams: "Off with the culprit's head!" In the name of human charity he would have the poor teacher deprived of his means of livelihood by cancellation of his certificate, and indignantly kicked out of his position, because he had been told that either a teacher or a schoolboy had suffered a fracture of an arm. Let us hope that the next of Citizen is so certainly feathered and effectively barred against the wolf that he may never know similar distress.

It is easy to criticize the school teacher, and in all conscience there seems no end to the omnipresent expert who knows everything about school work without ever having done any, and who, upon every possible occasion, bears out the same old sickening theme: "Duty of the teacher to his pupils." Has it ever occurred to Citizen that the teacher's task is made difficult because of parental failure in its duty to children before they reach school age? We are told the hand that

rocks the cradle rules the world, but it is fast becoming recognized by all thoughtful men and women that if a large percentage of present-day cradle rocking had been left alone civilization would be in safer keeping.

If Citizen will look around the social scheme of things, from the gilt and frippery at the top to the human development at the bottom, he will find no body of professional men and women performing pure faithful and conscientious service to the state than school teachers.

TEACHER.

Victoria, B. C., Sept. 7, 1912.

### "INASMUCH AS YE," ETC.

To the Editor: In Saturday night's Times we read: "Cleaning Vancouver of Bad Characters." Two young women who failed to obey the injunction of Magistrate South to absent themselves from the city were arrested and sentenced to six months with hard labor. The girls stated they were trying to live a straight life and were preparing to leave Vancouver at the earliest moment, but they were unable to get their belongings together in time. One of them cried bitterly and had to be led out of the courtroom by one of the police officers. Magistrate South said: "I am going to impress upon those women that Vancouver is not a good place for them to remain in, and as the jail at New Westminster is not a very attractive place they will leave the city as soon as they are liberated."

Not one in all that courtroom seems to have had a word to say for those girls—their first offence, probably. One feels one would like to ask, where were all the women belonging to the different societies in Vancouver for Christ-like work?

It has been said, "The nastier a thing is the better everybody should know it." Then one day people will be ashamed. What are all our Y. W. C. A.'s for if a few women from their midst cannot find time to be in a courtroom when such women are being tried? Even to the girls themselves surely some sympathy might have been shown by women from some such Christian society. Truly it can be said of the majority of us, if Christ had said, "Let her who hath never sinned, be stoned." And, alas, where were the men? Not guilty; and we join with them in keeping aloof, and in our case draw aside our skirts lest we be contaminated. Those of us who are in favor of "votes for women" would do well to ask ourselves what are we prepared to do for those women when we have won the votes?

H. C.

### CANADIAN MAGAZINE.

There is a commendable variety of matter in the September Canadian Magazine. "The Mystery of Edward Blake" is the title of an interesting essay. "The Highways and Byways of Dublin," with fine illustrations, is a delightful sketch of Ireland's capital, while equally charming is the sketch of the Thames River by Louise Hayter Birchall. A. J. Clark contributes a valuable sketch of Captain Kennedy, a Canadian who made two attempts to discover the fate of Sir John Franklin. The short stories are exceedingly good; in particular "Only an Englishman," by Bernard Muddiman, and "Madeline Bouvard," a translation of a Canadian story from the French of Pancher de St. Maurice. There are also several reproductions of sketches in charcoal by George Chavignaud, and a number of poems of merit.

"Nag" Roof Compositions are fire-proof and add years to the life of an old roof. See Newton & Greer Co., 1225 Wharf street.

## SUBSCRIBERS TO THE ENTERTAINMENT FUND

Chairman and Members of Citizens' Committee Extend Thanks to Them

Wynn & Co., British American Pilot Co., Turner, Fleeton Co., F. E. Stewart Co., E. G. Prior & Co., Wilson Bros., F. G. Electric, T. Co., Colonist Publishing Co., H. Brain Walker, J. F. East, Bishop's Paper, A. S. Barton, Times Publishing Co., Simon, Leiser, Moses Leuz, Dr. W. E. Home, P. Burns & Co., Westshore Lumber Co., A. W. Pease, H. M. Hillis, A. von Gfreswald, G. E. Stuart, Leonard Reid, C. A. Solly, Lott Main & Co., Currie & Power, Monk & Monteith, Ltd., Trackell, Douglas & Co., A. W. Bridgman, Hon. A. E. Smith.

The sewer investigation has at length commenced, and while it would be premature with the evidence still only partially heard to offer any comment, the evidence forthcoming has certainly justified holding the inquiry, and by the time the testimony is all in the committee should be in a position to present a report which will lay down lines to be followed in future years. Some important evidence will be available to-morrow, when the inquiry continues, from foremen who were on the jobs and actually know what certain principal sections of the work cost, particularly the northeast sewer, where the results have much exceeded any estimate formed by the engineers when the undertaking was designed.

The return of the mayor is certain to bring up the Westholme contract for Sooke waterworks, but in view of the progress which has been made since the time the contract was last before the council in the first week of August it will be difficult to persuade a majority of the council that a change would be desirable at the present juncture. The company is at last in a position to deal with the Gorge road, where the big 36-inch pressure pipe has to be laid before permanent work on this thoroughfare can be completed.

The motion with reference to the water commission is due for consideration this evening, and although it is one of the recommendations of the civic investigation committee, there is considerable doubt whether the present time will be regarded as opportune for action, while the negotiations in respect of the right-of-way and Humpback reservoir are unsettled.

A report on the mayor's visit to the east is expected to-morrow. The expectation that Victoria will in turn entertain the Dominion union of municipalities is a welcome one. The city entertained the British Columbia union here last fall admirably, and should certainly be in a position to be the hosts of the Dominion gathering. By the time the convention comes to Victoria, the Sooke waterworks should be an accomplished fact, and the paving programme of the city much more advanced than it is to-day.

The amount of council work is increasing again, and promises to keep the aldermen as busy as they were earlier in the year. They have to act as hosts to several bodies who take the fall season to visit the coast, and this month in every way is likely to be conspicuous in the number of distinguished people who are to be in Victoria, some of whom the city will entertain.

The contracts having been let for the two garbage sub-stations last week, the council seems at length to have definitely plunged into the policy of an adequate collection service to embrace the city as a whole. Large as was the appropriation to put this system into operation, the cost will be justified by results in the better health of the people.

### MILLIONS OF FISH.

The value of all the fish landed in England and Wales last year was \$3,224,000, and 14,419,500 cwts. of fish, exclusive of shell-fish, were landed. The annual report of the board of agriculture shows that this is a larger amount than ever before recorded. Herrings easily head the list of fish landed with 5,985,405 cwts. and large haddock are third with 516,768 cwts. The oysters run into millions, 26,358,115 were taken during the year. An in-

DOCTORS  
**LOWE & THOMPSON**  
PAINLESS DENTISTS  
1214 GOVERNMENT ST.  
OVER FRED FOSTER'S FUR STORE

Interesting comparison between crabs and lobsters is suggested by the fact that 4,786,984 crabs were landed and only 570,174 lobsters. The smallest quantities of fish landed were grey mullet, 705 cwts. and monk (or anglers), 343 cwts. Grimby's total catch for the year was 3,805,542 cwts., against which Hinderwell reported a total of 25 cwts., labelled "mixed." Chapman's Pool, on the south coast of England, however, goes one better with a total of 4 cwts. 1 cwt. of conger eels and 3 cwts. of whiting. And Silverdale, on the coast, landed 1 cwt. of mixed.

## DECADENT STATE OF RURAL CHURCHES

### Prevalent Conditions Awake Discussion of Vital Issues

Coupled with the problem of the rural school, with which Quebec educationists are dealing at present, is the ever-with-us question of the decadence in rural churches. Of late the subject has been attracting renewed attention from the religious press of the United States. While many of the statistics quoted are none too encouraging some of the comment even borders on gloominess.

The Northwestern Christian Advocate (Methodist, Chicago), in inviting discussion of the matter, says: "Changing social conditions, improved machinery, the introduction of the automobile, rural delivery of mail, the telephone, these and other innovations have gradually forced the church to ask, 'What must we do to save ourselves from death?'" Rev. Henry Wallace in The United Presbyterian (Pittsburg) gives an idea of the situation to be faced by reproducing a summary of a report compiled by a committee from the Presbyterian General Assembly. This shows that from 25 to 70 per cent of the farming population in the prairie states belong to no church and attend none.

In the congregations reporting the percentage was from 25 to 40 per cent, in some communities running as high as 70 per cent. It seems that in towns of 2,000 or less, about half the population attend no church, and about the same per cent of the children attend no Sabbath school, thus opening up a mission field quite as important, when viewed in its relation to our national life, as any mission field on the face of the earth.

Dr. Wallace is not concerned so much in the decline in the number of churches as in the proportion of the population that is being reached. He argues:

"If there is no raw material to be brought within reach of a Christian life, why establish a church at that place? It is a matter of the utmost importance that the country preacher take the same point of view as that of the foreign missionary; that his business is not so much to build up the church as it is to save men and develop human character. If our ministers could get this point of view for themselves, half the difficult problems of the rural church would be solved."

From twenty years' experience in teaching and preaching in the country, another authority, the Rev. M. B. McNutt, in The Northwestern Christian Advocate (Methodist, Chicago), comes to the conclusion that one of the greatest needs of rural life to-day is play, and that the church should concern itself in the recreation of its people. In his own church at Plainfield, Ill., there are clubs and societies for all ages. They meet primarily for devotion and Bible study, then turn to agriculture, home topics, or debate of current questions. Athletics, sewing-bees, parties, community picnics, lyceum courses, ploughing contests, and home-talent dramatics and concerts are the play side. "This keeps their minds sweet," the pastor says, "and its results in a better living are very marked. In all of the twelve years of my pastorate only one young person in that community went wrong." He thinks boys and girls stay by the farm in contentment only when its life is large enough for them.

"Boys don't leave the farm because they want to escape hard work, because they are equal to that, but because there is nothing but hard work and no fun. Farm life is strenuous now; there are fewer workers, larger responsibilities, more skill is required. All this exhausts energy which must be restored by recreation."

The observer of the shield—the congregation's way of looking at the pastor instead of his viewpoint toward them—is discussed by John A. Simpson in The Continent (Presbyterian, Chicago). He describes the country pastor's economic position as a "desperately serious" one, charging that the salary is looked upon as a benevolence, and made as little as possible, and that jealousy is aroused if the recipient tries to earn anything additional. This

### A. W. Bridgman

Bridgman Building  
1007 Government Street.  
Real Estate, Loans, Insurance

writer is of the opinion that one reason for a lagging attitude that lingers in rural congregations is that many country people have an exaggerated conception of the comparative value of cash:

"Many a rich farmer grudgingly pays \$20 a year to the minister's salary of six or seven hundred, with the complaint that he hasn't seen \$500 from one year's end to another. But comparatively few farmers keep accurate accounts, and their incomes are frequently larger than they suspect. And the farmer many times leaves out of consideration the large income he receives in the way of house, fuel, milk and butter, poultry and eggs, fruit, vegetables, meat, and so forth, which go to make a large part of the household living."

Nor does the increasing prosperity of farmers give assurance of any better times, it is explained, so long as they keep themselves in debt by continuing to buy more land. Meantime, the minister and his family are presumed to occupy the place of a "foremost family" in the community, and they are given the financial position of a poor center. In this connection, the writer sees dark days for the much-discussed minister's son:

"There is a cynical saying that ministers' sons turn out badly. The saying is far from true, yet there is cause for fear that it is becoming less untrue. The minister owns no farm or business with which to keep his boys occupied. He is usually too poor to send them away to school. There are probably no schools in the neighborhood beyond the eighth grammar grade. Consequently the ministers' boys are apt to grow up as practical outcasts. Frequently they can not mingle with the young people of the community, or even of the church, as social equals, because they lack property or prospect."

Perhaps the most optimistic tone to be heard in current discussions of the problems is that of The Central Christian Advocate (Methodist, Kansas City). The prosperity of some of the farmers in its neighborhood may be the reason why this journal appears more impressed than some of the others by the reputed wealth of the rural church constituency. Arguing in favor of making the country church a departmental headquarters for the young, instead of only an auditorium, it says:

"This is not an impossible or even impracticable thing. Many of our rural churches have more wealth per capita than our city churches. The city preachers, bishops, general conference secretaries, and others who were once circuit riders are now coming back to their wealthy farmer friends and former parishioners for large sums of money for colleges, missions, etc."

The cost of a church on each circuit with sufficient room and facilities for indoor recreation would be very small, and this church could serve the country for several miles in each direction, as it is no trouble for country young people to go four or five miles to some headquarters for amusement. Most of them have buggies, and many of them now have automobiles. This one centre of activity should be under personal supervision of the pastor and picked laymen, and should be made a ministry to the four-fold needs of the young people, viz., intellectual, physical, spiritual, social."

### NEW HOTEL FOR EDMONTON.

G. T. P. to Spend \$1,500,000—Work Will Begin in Few Days.

Edmonton, Alta., Sept. 9.—One and a half million dollars is the estimated cost of constructing and equipping the Grand Trunk Pacific hotel in Edmonton, upon which work will begin in a few days with a view to having it ready for occupancy the latter part of 1913.

The structure of seven storeys with full basement, 185 by 250 feet, will be of steel, concrete reinforced and stone, the architecture being of the chateau type, modified to conform to present day conditions. There will be 300 sleeping chambers, in addition to several dining halls, parlors and special rooms. The building will occupy a plot of ground, 350 by 400 feet, overlooking the picturesque Saskatchewan river, in the heart of the business district, and directly opposite the Edmonton club-house.

H. H. Ross, supervising architect, says that for location, style and completeness the hotel will rank with any of its size on the continent.

### GHASTLY CRIME.

Woman of San Francisco Underworld Cruelly Done to Death.

San Francisco, Sept. 9.—With the head nearly severed from the body and the arms and trunk frightfully slashed, the body of Lydia Berger, known as the most beautiful woman of the night life in this city, was found in her apartments by her maid Saturday. The walls of the room in which the body lay were covered with blood and the carpet was smeared with it. Thousands of dollars' worth of diamonds and other jewelry that had been worn by the woman are missing and it is evident that robbery was the motive for the crime.

The Berger woman was killed while in bed. Her long brown hair was wrapped tightly about her throat and a kimono she wore was lacerated with her body. The shambles that con-

fronted the maid when she went to her mistress's room. Indicated the struggle (that must have taken place. It is thought that before death overtook her the Berger woman tried to give an alarm, as the window curtains and the window pane are covered with bloody finger prints. The murderer washed his hands in the room and dried them upon expensive articles of his victim's clothing.

### BLAMES IT ON POOL ROOMS.

Tacoma, Sept. 9.—Charged with stealing \$500 in two months from the post office stamp department by a clever scheme, William Therkildsen, a 19-year-old messenger who played on the post-office baseball team this season, was arrested and released last week on \$200 bonds pending action by the federal grand jury. Therkildsen has been a special messenger in the post office for three years, being employed in delivering last is apologetic, but at that time, it is said, he became a frequenter of pool rooms. He says there is nothing left of the \$500. Therkildsen's plan was to have a boy friend ring up the stamp clerk. While the clerk stepped back from his booth to answer the call Therkildsen would go to the stamp safe, take some money and pass out. He was practically caught in the act Wednesday evening when he took a roll of bills from the safe. It is alleged.

### Municipality of Esquimalt

All persons who are qualified voters for the first election of the Municipality of Esquimalt are requested to register their names on or before September 12th next, at Room 220 Pemberton Building, Victoria, between the hours of 10 a. m. and 1 p. m. and 2 to 4 p. m.

The qualifications for voters at the first election are as follows: "A British subject of the full age of 21 years, having lived in the district three months immediately preceding August 15th, 1911, and registered owner of real property within the boundaries of the

municipality of the value of at least one hundred dollars."

A. B. ELLAN,

Returning Officer.

### Public Convenience

Applications, accompanied by testimonials and references, will be received at the office of the undersigned until Monday, 16th September, at 2 p. m., for the position of caretakers of the public convenience at the corner of Wharf and Government streets. The appointment is subject to the following conditions, namely:

(a) The caretakers are to have the privilege of carrying on a boot and shoe blacking stand in each compartment on each day of the week, except on Sundays.

(b) Caretakers to furnish towels and soap.

(c) The city to furnish light and heat.

(d) The convenience to be kept open from 7 a. m. to 12 o'clock midnight.

The application of man and wife to be preferred.

## BIRTHDAY CALENDAR

IF THIS IS YOUR BIRTHDAY

Do not let company or social pleasures draw your attention away from the tasks which you wish to accomplish. You are cautioned to avoid risks and new enterprises. Those born to-day will have wit and vivacity and will be great successes socially. They will gain wealth easily but will spend it foolishly. At home they will be quarrelsome.

Birthday  
Congratulations  
TO

September 8.

Archibald, Hon. John Spratt, M. A., D. C. L. (Montreal); born, Musquodoboit, N. S., 1843; barrister and professor of McGill University until appointed a judge of the Superior Court of Quebec in 1893.

Burke, Rev. Albert Edward, D. D., L.L. D. (Toronto); born Georgetown, P. E. I., 1862; formerly secretary to the Bishop of Charlottetown; then priest in Alberta for 19 years; now president of the Catholic Church Extension Society of Canada.

Corbett, Hon. John Edward, M. L. C. (Harbor au Bouche, N. S.); born Antigonish, 1850; member of Nova Scotia Legislative Council since 1896.

## EDMONTON GAS SUPPLY.

Edmonton, Alta., Sept. 9.—When the city council of Edmonton called a special election for September 23, at which the ratepayers are asked to sanction improvement ordinances involving \$1,000,000, of which \$700,000 is for municipal owned gas supply and distributing plant, the commissioners received proposals for natural gas at bargain counter rates. H. R. Campbell, who has a well within three miles of the city limits, offers to supply gas at five cents per thousand cubic feet on a basis of 2,000,000 feet a day. A. Macleod, associated with Eugene Coste, president of the Western Canada Natural Gas, Heat, Light and Power Company, wants a franchise for 20 years to supply gas at the city boundary at 15 cents for commercial purposes, 27 cents for domestic purposes, or a flat rate of 21 cents. The council recently decided not to grant franchises for any public utility.

## SOCIALIST PREDICTS PANIC.

Phoenix, Ariz., Sept. 9.—"A panic is on the way; it is sure to come, no matter who is elected, Republican, Democrat or Progressive," said Eugene V. Debs, Socialist candidate for president, here Saturday.

Mr. Debs addressed a large audience. When he declared that woman suffrage should be adopted he was given an ovation. Governor Hunt was an interested listener to the Socialist candidate's remarks. After his address Debs was introduced to the governor and the two talked for some time.

## YOUNG LAWYER ON A LONG SIDE TRIP

ADrift ON SOUND IN  
A DISABLED LAUNCH

Arthur Pitts Left William Head  
for Oak Bay Yesterday After-  
noon—Rescued Near Seattle

Afloat in a disabled motor launch on Puget Sound all yesterday afternoon and last night, Arthur Clarence Pitts, son of S. J. Pitts, retired wholesale fruit merchant, 1534 Rockland avenue, caused considerable anxiety to his father and relatives last night and this morning by his absence. Fears were entertained that the young man had been drowned and five launches were out searching last night when he did not return to his home by nightfall. While the launches were resuming their search to-day a wire was received by Mr. Pitts from his son announcing his safety from aboard the tug Fearless bound for Astoria. The message had been sent by wireless at 8 a.m. this morning and came via Seattle.

Arthur Pitts went yesterday afternoon in his eighteen-foot launch Gladys to William Head, and left there on his return to the Oak Bay house at 3.30 p.m. When he did not return telephone communication was obtained with the Quacantine station, where it was learned that he had left for home. The search parties were then sent out. The message received by Mr. Pitts is to the effect that his son was picked up in Puget Sound in a disabled motor launch that was flowing on the tide towards Seattle. The tug Fearless was en route from Seattle to Astoria, and after picking up the owner of the disabled motor boat continued with owner and boat to Astoria. The young man will return to Victoria from Astoria.

Arthur C. Pitts is a young lawyer recently admitted to the bar of British Columbia and is an ardent ocean motor enthusiast. He is one of the popular younger members of the legal profession and is associated with the office of Eberts and Taylor, the well-known barristers. Further anxiety was caused to his father and relatives last night by the news received from a gentleman who left William Head late in the afternoon to the effect that he had seen no sign of the Gladys. The provincial police were notified and every effort used to ascertain the whereabouts of the missing young lawyer.

Hon. F. B. Gregory returned a few days ago from a three months' visit to Europe.

Mr. Justice Martin has gone to Vancouver to hold a session of the admiralty court.

Mr. Justice and Mrs. Duff went over to Vancouver to-day on the G. T. P. steamer. Judge Duff will visit Prince Rupert.

Wm. White, K. C., of Pembroke, Ont., who is a well-known story-teller, as well as a prominent lawyer, spent yesterday at the Empress.

In St. James cathedral, Seattle, on Wednesday, the marriage was solemnized of Clifford J. Carroll, fourth son of Mr. and Mrs. P. H. Carroll, of Victoria, and Gladys S., daughter of Mr. and Mrs. S. Hocking, North Park.

## SUNSHINE FURNACE

—beats the house evenly  
and comfortably in the  
coldest weather—  
consumes fuel  
sparingly and  
saves work.

street, also of this city. The young couple have a wide circle of friends in the city, from whom they have received the warmest congratulations and good wishes. The bridegroom has taken a prominent part in local athletics, having held the amateur mile championship of British Columbia for a season.

Mr. Boyd Caldwell, of Lanark, Ont., who has been spending a few days at the Empress, left to-day for home. He is a son of Mr. T. B. Caldwell, woolen manufacturer of Lanark, who represented North Lanark in the House of Commons up to 1904.

## FINAL SKETCH OF PROGRAMME FOR VISIT

Royal Party Will Have Busy  
Time During Visit to  
Victoria

Lieut.-Colonel Lowther, who arrived at the Empress hotel yesterday, had a conference with Lieut.-Governor Patterson to-day with regard to the reception for their Royal Highnesses, the Duke and Duchess of Connaught when they arrive here. To discuss these arrangements is the mission of his excellency's A. D. C. to Victoria prior to the arrival of the royal party.

The Princess Alice will reach the wharf at 5 p.m. on September 27, an hour earlier than previously announced, and the royal party will walk across to the Parliament grounds from the wharf to receive the civic address of welcome. The party will use carriages rather than automobiles, having in mind the guard of honor, and will proceed to Government House by way of Government street, Yates, Cook streets and Rockland avenue.

The functions for Saturday, September 28, will include the laying of the foundation stone of the provincial library, and the Sailors' Institute, the visit to the exhibition in the afternoon, returning to Government House at 4 o'clock for the St. John ambulance Association demonstration. Sunday will be a quiet day. On Monday there will be an official dinner at Government House, and a reception at the Parliament buildings subsequently.

On Tuesday the presentation of medals, and review of the school children will take place in the morning, and in the afternoon there is a garden party at Government House.

Organized Play.—The weekly contests at the Beacon Hill playground which have been a feature of the organized games held by Miss Ruth Jarvis, had to be held over on Saturday afternoon on account of the incessant rain. These will be held on Thursday afternoon. Great preparations are now being made for the Field Day on September 21.

## PREMIER BORDEN NOW AT OTTAWA

HEARTILY WELCOMED  
BY PEOPLE OF CAPITAL

Will Be Banqueted To-night  
and Will Not Refer to the  
Navy Question

Ottawa, Ont., Sept. 8.—The series of civic welcomes which Premier Borden has been receiving had their climax to-day when Ottawa turned out at noon to give the Premier a greeting home. In size and elaborateness the reception was not to be compared with Montreal's demonstration, but in warmth and enthusiasm probably exceeded it.

The Premier arrived in Ottawa at a late hour on Saturday night and Sunday was spent quietly, attending Christ Church Cathedral in the morning. To-day was Mr. Borden's first public appearance. Thousands lined the streets as he was driven at noon from his home on Wurttemberg street to the city hall. There was a big parade of automobiles in the morning. The city hall was appropriately festooned with flags and bunting, and across the entrance was an immense sign, "Welcome Home."

Mayor Hopewell read the civic address, which was briefly replied to by the Premier. At the close of the civic welcome Premier Borden was driven to Lansdowne Park, where he was the guest of the directors of the Ottawa Fair Association, and afterwards he formally opened the Dominion Exhibition. The banquet to-night at the Chateau Laurier promises to be a noteworthy affair. A delegation to-day arrived from Halifax, and the Premier will probably return with them to open the Halifax Fair on Wednesday. All the ministers except Col. Hughes will be present at the banquet, while the Premier's speech is looked forward to with considerable interest. It has been officially intimated there will be no announcement made in regard to the navy question.

The first cabinet meeting of prominence will probably not be held until the Premier's return from Halifax. The big outstanding question is, of course, the naval policy, but until further information arrives from England, as stated by the Premier, the subject can only be informally discussed by the cabinet. However, there is plenty of legislation to consider and a number of important announcements to make.

CRUSHED BY FALLING TIMBERS.  
Laborer Buried Beneath Debris When  
Sewer Caves In.

Vancouver, Sept. 8.—Buried beneath a mass of debris which caved in while he was working in a sewer at Eighth avenue and Balclutha street, Ralph Broloch, a laborer living at 29 John street, suffered a broken back at 2.30 o'clock this afternoon and is at the General hospital. His death is almost momentarily expected.

Broloch and several other laborers were digging in the sewer when several tons of dirt caved in, in which the only man directly beneath the falling earth and he was pinned down by the heavy timbers that lined the side of the sewer. Immediately after the accident Broloch's fellow-workers started frantically to dig him out. He was extricated in about fifteen minutes, but it was found that the falling timbers had snapped his spinal cord.

J. W. SIFTON ILL.

Winnipeg, Sept. 8.—J. W. Sifton, who has been ill some time, has taken a turn for the worse. Hon. Clifford Sifton, his son, and other members of the family have been summoned by wire.

EVERYBODY KNOWS THAT CADBORO BAY DISTRICT WILL BE ONE OF  
THE HIGHEST CLASS RESIDENTIAL DISTRICTS IN CANADA. CAN'T YOU  
SEE THAT THE TIME TO BUY A LOT IS NOW?

# "Madrona Park"

Offers advantages of location, view, area of ground, price and terms that cannot be duplicated in this district. It is a comparatively small, exclusive subdivision. Many of the lots have been taken up during the past week by desirable people who will erect beautiful homes. Others intend to hold as an investment. Either way they have obtained a sterling proposition. "MADRONA PARK" lots are 75x160 in size, and lie on a gentle slope, commanding full views of "UPLANDS," the Straits, Cadboro Bay and the Olympic Mountains. Spring water in plenty, wide streets, fresh, pure air. Five minutes' walk to new "UPLANDS" car line.

## OBITUARY RECORD

The funeral of the late Robert G. Hutchinson took place on Saturday afternoon from the Hanna-Thomson chapel, the services being conducted by Mrs. Munroe, of the Christian Science church, and a large number of friends whom the deceased had made during his four years' residence in this city being present. Mr. Hutchinson is survived by his wife, to whom he was married only a few months ago. He was a native of Lerwick, Scotland, and latterly was engaged as an accountant with Pemberton & Son. The funeral services were unusually impressive, and the Arion club, of which Mr. Hutchinson was a member, were in attendance and sang both at the conclusion of the service and at the graveside, while great quantities of floral wreaths, crosses and sprays testified to the love and esteem in which the dead man was held by his friends, among the senders being the head of the firm by whom he was employed, P. B. Pemberton, wreath; fellow-workers, wreath; and Arion club, wreath. The following acted as pallbearers: P. Clough, E. de Salis, A. H. Adams, R. Haviland, N. T. Burdick and R. Pittsworth.

The death occurred last Saturday evening at the Victoria private hospital of Dolly Viola Abbott, the five-months-old daughter of Mr. and Mrs. Harold Abbott, of Duncan. The remains were shipped to Duncan yesterday morning by the B. C. Funeral parlors, interment taking place in that city. Rev. Leakey officiated at the funeral services.

After a long illness Dr. William Moody died at Vancouver on Saturday evening at the age of 21 years. Dr. Moody was the son of T. G. Moody and was born in this city. He attended the Boys' Central school, subsequently graduating in dentistry at the Philadelphia College. He had a wide circle of friends in Victoria who will deeply regret to learn of his death. Dr. Moody leaves a widow, his father and three brothers, Doctors Frank, Harry and T. G. The remains arrived from Vancouver early this afternoon and at four o'clock the funeral took place from Hanna & Thomson's chapel, Rev. C. C. Owens, of Vancouver, officiating. The pallbearers were: E. Watkins, W. Tait, J. McLean, R. Goodacre, Dr. W. Russell, Dr. Henderson.

## TRAGEDY RESULT OF QUARREL

Yreka, Cal., Sept. 8.—During a quarrel with a fellow occupant of a bunkhouse at a lumber camp in Hill, near the Oregon state line, Joseph Brown, a woodsman of Jacksonville, Oregon, was shot and killed last night. The authorities are searching for a foreman with whom Brown was known to have had trouble. Brown was 27 years old, and his father lives in North Yakima, Wash.

## MEN, LISTEN!

There is not a drug on earth that can cure varicose. A great many doctors claim to remove this treacherous disease with poisonous applications and nerve wrecking doses, but they never show any proof of their cures. The reason is plain—they never cure.

Varicose is the greatest strength-sapping scourge that afflicts men. Its influence reaches out over the entire vital organism, robbing the nerves, the stomach, the heart and brain of the nutrition which nature sends them.

The cause of varicose is a congestion of blood. The circulation is checked and almost stopped. The blood vessels become twisted and distended. The affected parts that are deprived of life blood, gradually waste away and a general breakdown in health often results.

The only way to cure varicose is to remove the congestion of blood. Drugs don't do that.

They never did and never will. The surgeon's knife will do it, of course, but that leaves you just part of a man.

The best way is to help nature cure. Electro-Vigor does that. It sends a gentle but powerful current of electric life into the affected parts, decomposes the stagnant blood and cleanses the veins by promoting a vigorous circulation of warm, healthy blood, which carries off all impurities and restores them to their natural healthy condition.

Electro-Vigor builds up strength. It increases vitality and power and makes a man of you in every way. No pain or weakness can exist where

## POLITICS FACTOR IN STOCK MARKET

Interest Centres in Probable Action of United States in Mexico

(Courtesy F. W. Stevenson &amp; Co.)

New York, Sept. 9.—The stock market was well sustained but trading was restrained, traders awaiting the government report on grain, and Maine election. Politics loom larger for the present. Much interest is being taken in the probable future action of the United States in Mexico. Quite a little uneasiness was experienced in January over the Cuban situation, but the stock market was quite strong. In the event of intervention it is not improbable that at least for a time the stock market will hesitate if not decline moderately, but still judging by the trend of events referred to above it would seem that industrial expansion resulting from American activities on the other side of the border would be reflected by satisfactory trade conditions, though admittedly the prospect of foreign complications might enter into the situation to a greater extent than in the Spanish-Cuban matter owing to the fact that foreign interests are so diversified.

## VICTORIA STOCK EXCHANGE

Victoria, Sept. 9.—The local stock market brightened up this morning from its recent apathy and quite a number of sales were made. Coronation Gold took the lead with sales of 1,800 shares at 46c; this is a rise of 2 points since the last sale, and probably indicates renewed activity at advancing prices for this stock in the future. Great West Permanent Loan holds firm at 13c, at which price most of the holders of this stock can sell out at a profit.

## GRAIN MARKETS.

St. Louis, Sept. 9.—Cash corn 1 to 2 lower; oats unchanged. Minneapolis, Sept. 9.—Strong cash market; local and country mills and elevators buying No. 1 Northern 1 to 2 cents over. Paris, Sept. 9.—Wheat closed 1 to 1 1/2 higher. Omaha, Sept. 9.—Cash wheat 1 lower; corn 4 to 1 lower; oats unchanged. Chicago, Sept. 9.—Cash wheat unchanged; corn steady to 1 lower; oats 1 to 1 1/2 higher. Kansas City, Sept. 9.—Cash wheat unchanged to 1 lower; corn unchanged. St. Louis, Sept. 9.—Cash wheat unchanged.

## FINANCIAL NOTES.

Thos. Dea has returned to Boston from Lake Copper country and is very optimistic on copper. He says general business in the west is very encouraging. Mr. Dea expects a broad and active copper market.

World's shipments of wheat, exclusive of North America, 10,544,000 bushels; North America, 3,988,000 bushels. Corn, exclusive of North America, 1,350,000 bushels; North America, 24,000 bushels.

Chicago receivers say their advice indicates heavy shipments of cash wheat. Wheat on passage increased 3,900,000 bushels; corn, 24,000 bushels; oats, 25,000 bushels.

A Chicago dispatch says: There have been liberal sales of oats for export to date. Copper Producers' report shows a decrease of 1,500,000 pounds.

Visible supply: Wheat, increase 3,100,000 bushels; corn, decrease 351,000 bushels; oats, increase 1,375,000 bushels.

Copper Producers' statement for August shows stock decreased 3,575,000 pounds. Stock, 48,771,274 pounds compared with 50,594,421 pounds in July. Production was 145,028,321 pounds, compared with 137,181,129 in July, and 125,458,067 in August a year ago. Domestic output, 75,752,491 pounds; exports, 70,485,150 pounds. Total deliveries, 146,237,641 pounds.

Chicago clearances: Wheat and flour, 80,000 bushels; corn, 4,000 bushels; oats, 25,000 bushels.

## CHECK TO GOLD PRODUCTION.

The New York Times quotes H. C. Hoover, who, our contemporary says, is an engineer of much international authority, as making the point that the recent great increase in gold production is due to the discovery of a process, not to discovery of mines. "The enlarged supply comes from the old sources, and is constantly lessened as the old material is worked over with the resources of modern science. To be sure, there may be a discovery of either still another process of extraction, or of unimagined mines, but one is as little likely as the other. Meanwhile, with the constant cheapening of gold, there is a constant tendency to lessen the frenzy of the attack upon the old stock of raw material of what may be called the manufactured article. For, in fact, the new processes are almost processes of manufacture. So many yards of material, so much cost for working, so much profit, and ultimately an end. This is not such an alarming economic factor as the old discoveries in Alaska or Africa or other discoveries with and without settlement of all prices as a consequence. Not in ten years have there been such discoveries as are necessary even, to maintain the present rate of production, whose culmination seems past, and whose decline approaches, with speed proportioned to the amazing output, and to the decline of prices associated with it in a degree regarding which authorities differ, even though all attach some importance to it."

## TRADING QUIET IN CHICAGO PIT

Lower Prices in Northwest Have Depressing Effect—Government Report

Courtesy F. W. Stevenson &amp; Co.

Chicago, Sept. 9.—With lower prices in the northwest markets wheat in Chicago had depressing action from the outset, but trading was very quiet, pending the government report which was issued after the close. Minneapolis, however, wired a strong cash market. Both corn and oats were very quiet, oats showing moderate stubbornness. The government report is herewith appended:

Total production corn, 2,995 million bushels.

Total oats, 1,290 million bushels.

Oats showing 92.3.

Total spring wheat, 300 million bushels.

Winnipeg Grain Markets.

Winnipeg, Sept. 9.—Wheat markets were steady, but after some strength at the opening closed considerably weaker. The market is waiting the movement of the weather, which, given a week of fine dry weather, will commence in another week. There is a good export demand for oats. Fine weather and higher temperature prevailed to day generally over the west, but the heavy rain last night in Southern Alberta will delay for a couple of days winter wheat threshing. There is an excellent cash demand for low grades, but little inquiry for higher grades. Receipts were light, being 43 cars inspected and 6 in sight. Cables closed 1 lower.

## Happy Thought!

You have heard all about this famous range long ago. It's the range that proved Messrs. BUCKS' superiority in range construction years ago; in fact is the name of the first model produced by BUCKS over sixty years since, but of course considerably improved and now made about as perfect as a range can be made.

This cut barely shows the outline of this wonderful model. However, we have quite a few set up in our store and we conscientiously assert that until you have seen the "Happy Thoughts" or the well-known "Criterion" you do not possess an idea of the acme of rangeology.

We have two or three other styles and sizes in "Buck" Ranges commencing at those wondrously low-priced six-hole "LIBERTIES" selling at \$29.75, the heating and baking qualities of which are unequalled and appearance immediately appealing to your fancy.

## ADVANTAGES OF

## TWO DOMINIONS

Australian Visitor, Who Called Here, Compares Canada and Commonwealth

William Cattank, a member of the Victorian Water Commission, who was sent to America on behalf of the Victorian Government some months ago, with the object of inducing irrigationists to come to that state, and at the time was interviewed by the Times, says on his return to Australia some interesting things.

"I have come back more than ever satisfied that Australia, from an immigration point of view, is becoming daily more popular," said Mr. Cattank. "It is freely reported that the Canadian authorities are so concerned at the trend of things that they are increasing the immigration grants and are doubling the amounts paid to agents. Canadians are very keen on immigration. For a long time Canadians have realized that immigration is the best policy for advancement. There has never been any divergent opinion upon this matter, and the Labor party think on the matter in the same way as do the Liberals. People go to Canada chiefly because of the proximity of the country to their own land, and also because of the splendid systematic manner in which Canada advertises. Personally, I don't know why people go to such a climate when they can find a far more congenial climate in Australia. While I was in Winnipeg it was twenty or thirty degrees below zero, and I could not help contrasting it with the splendid conditions of Australia."

What is the chief objection to Australia?

"Well, they feel that when they go out on such a long journey they are going away for ever. Australia, however, is now loomed very largely in the eye of prospective immigrants. The agents throughout Great Britain are saying that inquiries about Australia have greatly increased of late."

What is your opinion of trade prospects?

"I was particularly struck with the possibilities of trade if the business were properly managed at both ends and better discrimination shown. There are immense possibilities in front of it, and there is no limit in respect to the apple trade. When I say that better discrimination should be shown, I mean that a more suitable sized apple should be picked at this end. Apples are such a price in London that a customer does not feel inclined to place a large-sized apple on a child's plate when a much smaller one would do for the occasion. I found that the meat trade of Australia had advanced in public favor, and that the meat was considered better than Argentine or La Plata meat. When in Hamburg I had an opportunity of chatting through an interpreter to an agent there, and I am certain that if an Australian agent were appointed there it would have the effect of trebling the business now done with Australia."

What about the irrigation scheme?

"Well, as you know, I succeeded in sending a number of irrigationists to Victoria. Fifty were sent in one batch, and since then they have been arriving, I believe, by tens and fifties."

## MAN LOSES CLOTHES

## AND FIGHTS HIMSELF

Clad in Undershirt and Pants Williams Becomes Angry and Seeks Protection

Clad in one shoe, a pair of trousers, and an undershirt, and wearing in place of his other clothing a "bun" that enveloped his whole personality, John Williams last night appealed for aid on Store street to Detectives Secret and Mann, asking that he be taken care of, that a police constable be brought and that he be given a lodging for the night. Dragging his bare foot along the sidewalks without expressing any sentiments on the state of the thermometer, Williams punched his face with his fist, marking himself and breaking the skin. For the edification of the detectives he danced part of a Highland fling on Cormorant street while en route to the lockup, and then lapsing in a normal state of mind told his guards that any man who got as drunk as he should be sent to jail.

Appearing in court this morning Williams asked the detectives what had become of his clothing, and learning that he was found in the condition in which he awoke this morning, buried himself in thought. When asked what he had to say he remarked that he was guilty and did not remember the circumstances.

Despite his lost clothing and his lack of funds Williams this morning expressed the belief to Magistrate Jay that he was financially sound, and would be able to pay his fine if he could get out for a few moments, but he will have to stay in jail for five days if he cannot recall where his money is, and if he remembers he will be allowed to send a constable for it.

When found Williams was striking himself on the chin with his fist and the detectives prepared for a rough time in getting him to safe-keeping. They were surprised when he asked them to call a constable and have him locked up. "Gentlemen," he said, "any man that gets as drunk as I am on a Sunday night, deserves to go to jail." He then struck himself a hard blow with his fist above the eye.

Suffering from the opium habit, a young Englishman named George Rackley, pleaded for a chance when charged with vagrancy, to get out and obtain some medicine, promising to go away into the woods to work and recover his manhood. Owing to his habit he had been sent to jail at Vancouver as a vagrant, and this morning departed for prison for three months, as the magistrate thought under confinement he would have a better chance of being cured from the opium habit than if allowed his freedom.

## RETURNING TO B. C.

Victoria State's Representative Takes Immigrants to Australia.

Major S. Harris will arrive here on the Zenobia, on Tuesday week from Melbourne, after taking 46 immigrants to Australia. The major is agent in Vancouver for the Victorian government's immigration affairs.

Climatically and from almost every other point of view, he stated, the conditions obtaining in the Rochester district are similar to those experienced in California, Washington and Nevada. The one big difference is in the price of land.

In the Sacramento Valley, California, the price of land runs from \$2.50 to \$2.90 per acre, and the irrigationists grow annually crops that pay the interest on that money. Their crops are no bigger nor better than can be raised in Victoria state nor are their market facilities any more advantageous. In California, the terms of purchase are: One-quarter of the cash down, and the balance spread over one, two or three years at 6 per cent. per annum. Where the balance is payable within 10 years, the terms are considered prodigal. The eagerness of the American irrigationists to go to the garden state of Australia is readily understood, in fact that land is offered here at 3 per cent. cash, and the balance at 4 1/2 per cent. over 3 1/2 years.

In California the cost of water is \$17.50 (\$3 1/2 lbs.) per acre foot; in the

## FINCH &amp; FINCH, Ladies' Outfitters

"The Shrine of Fashion"

## Opening of Fall Millinery and Exhibition of Gowns, Suits and Coats To-morrow

We are holding a reception in our newly decorated and well-appointed salon, where will be exhibited the creme of productions from Paris, London, Vienna and New York. Our designers have spent much time in these markets and are now at the disposal of clients considering the selection of the Hat or Gown for the present season.

The new Millinery salon is arranged conveniently on the second floor, and we claim to possess the most inviting parlors where Millinery is a special feature. Mademoiselle Maring, who has been specially engaged to control the Millinery section, comes to us with an experience covering the best of Paris and London houses.

FINCH'S has become a household word in the West as a synonym for all that is newest, best and most exclusive.

We extend to ladies of discrimination and taste a special invitation to view Model and Finch creations in Millinery, Gowns, Suits and Coats—models from Paquin, Poret, Worth, Drecoll and Lacroix being well represented.
